The new fees are comparable to surrounding townships, and the increases are to keep up with the cost of services. With no further comments, roll was called. All Commissioners voted YES: Commissioners Gondek, Forste-Grupp, Cavender, Holmes, Quinn, Hart, McCollum, McCloskey, Trombetta.

Commissioner Forste-Grupp seconded the motion. Commissioner Quinn asked to summarize what a disposition of public records means. #### Resolution 2439-2025 – Preliminary/Final Land Development Approval, Llanerch Country Club

Commissioner Hart moved to adopt Resolution No. 2439-2025 approving Preliminary/Final Land Development Plan for the Llanerch Country Club for improvements including a new swimming pool, café, parking area and stormwater management at 950 West Chester Pike, Havertown. Commissioner McCloskey seconded the motion. Commissioner Gondek had a question regarding the litigation pertaining to the resolution. The Board agreed to briefly reenter into executive session to discuss.

Upon returning from executive session, Commissioner Gondek asked Solicitor Walko if, as Township counsel, what his recommendation for the passing of the resolution would be. Solicitor Walko explained that, while the Board of Commissioners cannot exceed the municipality's subdivision and land development capacity, it does have the power to approve and consider plans, which is a requirement in the process for approval. President Trombetta asked the representatives from the Llanerch Country Club to give the presentation they prepared. Commissioner Forste-Grupp asked if some of the trees at an intersection could be removed to improve sight lines. The Llanerch representatives answered that they had already been removed. Commissioner Forste-Grupp asked what the minimum number of trees planted would be. The answer would be as many as the Shade Tree Commission recommended. Commissioner McCloskey asked if the new trees along the 9th Fairway would be added to the existing tree line or if they would be replacing existing trees. It was answered that the current shade tree plan did not include any trees at that area. Commissioner Gondek noted that it seems like the Country Club is not doing much to amend the issues at the 9th Fairway. They responded that that fairway is not part of the current land development plan. Solicitor Walko explained that a condition of the land development plan is that the Country Club would adhere to the recommendation of the Shade Tree Commission regarding the 9th fairway. Commissioner Forste-Grupp asked Commissioner Hart to accept an amendment for specific language of what Solicitor Walko explained. Commissioners Hart and McCloskey agreed to it. With no further comments, roll was called. Eight Commissioners voted YES: Commissioners Gondek, Forste-Grupp, Cavender, Quinn, Hart, McCollum, McCloskey, Trombetta. Commissioner Holmes abstained. The motion passed 8-0.

#### Continuation of Citizens' Forum for Non-Agenda Items

Todd Hall, 2nd Ward, voiced concern for pest control during the Llanerch Country Club construction. He also noted his appreciation for public works employees and crossing guards.

Daria Dowdy, 6th Ward, asked for a longer comment period for the Comprehensive Plan.

Melissa Ungvary, 734 Rugby Road, expressed concern about communication regarding the Comprehensive Plan.

Mike Lee, 304 Fairlamb Avenue, also expressed concern about communication regarding the

Comprehensive Plan.

Elise, 757 Preston Avenue, expressed concern regarding rezoning in the Comprehensive Plan.

Bryan Ramona, Belfield Avenue, gave an update on Historical Property recognition in the Township. He also recognized the good work of students at Haverford High School's radio station and a former student's Olympic achievements.

Solicitor Walko wanted to note that the Comprehensive Plan does not directly result in Zoning changes, but creates a blueprint for possible changes in the future.

Commissioner Gondek asked for clarification regarding the timeline for Comprehensive Plan adoption. Township Manager Burman clarified that the 45-day window is a statutory requirement for public comment, and that after the February 15th deadline, a new revision will be compiled, and the public comment process will continue for the new revision. This process will be repeated as many times as necessary to create a plan that is acceptable for formal consideration.

Commissioner Quinn suggested streamlining the motion process during meetings.

16. **Default/Abandonment.**

- a. If the Tenant defaults in the payment of rent or any other term or condition of this Lease, Landlord may give Tenant written right to cure such default. 4. Applicant must comply with any applicable requirements of the Delaware County Conservation District, Pennsylvania Department of Environmental Protection, Pennsylvania Department of Transportation (including, but not limited to, obtaining any necessary Highway Occupancy Permits and Signal Permits required by PennDot), United States Environmental Protection Agency, or any other necessary outside agency, and obtain any necessary planning modules, approvals, or permits from such agencies, or enter into any required agreements such agencies require, before the Plan is recorded.

Security shall take the form of a cash escrow held by the Township, an irrevocable standby letter of credit in a form acceptable to the Township Solicitor, or a tri-party agreement in a form acceptable to the Township Solicitor. If Applicant were to post financial security in the form of a bond, the Township Solicitor shall have the unconditional right to review the bond and must approve the conditions and language of the bond. Further, the bond shall be issued by a "AAA" rate surety, or its equivalent, qualified to do business in Pennsylvania, and shall contain language stating that the bond is to be payable upon demand, absolutely, and unconditionally, and if payment is not made, that the bonding company shall be responsible for reasonable attorneys' fees and costs that are incurred to collect on the bond, plus interest at the annual rate of twelve (12%) percent, for so long as the bond remains unpaid. A bond or letter of credit is required to automatically renew annually until the Improvements detailed on the Plans are completed, any maintenance periods have passed, and the final release is issued by the Township, subject to partial releases being permitted in accordance with Pennsylvania Municipalities Planning Code. To ensure automatic renewal, a bond or letter of credit shall include a 90-day Evergreen Clause in a form acceptable to the Township Solicitor.

10. Financial security shall be posted in the amount of 110% of the total cost of the Improvements. The Applicant agrees that the Improvements shall include, but shall not be limited to, streets, parking areas, striping, drive aisles, curbs, water mains, sanitary sewer pipes, manholes and appurtenances thereto, stormwater facilities, rain gardens and appurtenances, grading, erosion and sediment controls, public lighting, required trees, shrubs, plantings and landscape buffering, monuments, pins, sidewalks, or other public improvements designated by the Township Engineer. For a period not less than 18 months after Township Engineer approval of the Improvements, financial security shall remain posted in the amount of 15% of the total cost of the Improvements that are to be dedicated to the Township, if any.
11. All outstanding Township fees, including review and recording costs and fees, Township Engineering fees, and Township legal fees, and any other professional fees associated with the review and approval of the application and Plan shall be paid in full before the Plan is recorded, in accordance with the Pennsylvania Municipalities Planning Code.
12. Prior to recording the Plan, and in addition to the financial security posted for the Project, Applicant shall deposit with the Township or otherwise establish a reasonable sum of monies with the Township, in an amount to be reasonably determined by the Township Engineer, as to be further described in the Land Development and Financial Security Agreement, for the reimbursement of the Township's reasonable engineering, inspection, legal, and related administrative costs and expenses related to the further reviews, inspections, and development of the Project, in accordance with the Pennsylvania Municipalities Planning Code.
13. A note shall be included on the final recorded Plan listing any waivers granted by the Board of Commissioners.

# Resolution No. 2442-2025

## Preliminary / Final Land Development

14. Except for the conditions and requirements placed upon the future development as specified in the Plan and herein, this Resolution shall not apply in any way to any future construction or land development on any lot or the consolidated lot. Upon any applicable construction or commencement of development on the consolidated lot, the Applicant will obtain any other necessary Township approvals, relief, and/or permits, and pay all applicable fees, unless additional relief is obtained.
15. The terms and conditions of this Resolution shall run with the land and shall apply to any assignee, transferee, or other successor in interest in the Property or the development of the Project. This Resolution or a memorandum of this Resolution may be recorded against the Property by the Township, or a subdivided portion of the Property, at the Township's sole discretion, to which the then-current landowner of the Property shall be deemed to have consented to such recording. Regardless of whether this Resolution is recorded, the Township shall have the right to enforce any violations of the conditions of this Resolution as a violation of the Township's Subdivision of Land Chapter and/or pursuant to Section 616.1 of the Pennsylvania Municipalities Planning Code.

B. Waivers. The Applicant has requested the following waivers from the Township's Subdivision of Land Chapter pursuant to a written waiver request. An indication that a waiver was granted reflects that the Township has determined that the Applicant has sufficiently established that the literal enforcement of the provision waived will exact undue hardship because of peculiar conditions pertaining to the land in question, and that the waiver is not contrary to the public interest or otherwise contrary to the purpose and intent of the Township Code, as demonstrated and explained by appearances of the Applicant before the Board at public meetings and through the waiver request letter(s) submitted. A lack of indication of the decision on the waiver after the Township has executed this Resolution shall be interpreted to mean that the waiver was granted, unless the minutes of the associated Township meeting reflect otherwise:

1. From Section 160-3.B to request a waiver to submit a preliminary plan simultaneously with a final plan. The waiver is hereby:

Granted \_\_\_\_\_ Denied \_\_\_\_\_

2. From §160-4.E(5)[e](4) regarding the requirement to indicate all storm drainage, sanitary sewer and public water supply lines of facilities within 400 feet of the site. The waiver is hereby:

3. From Section 160-4.E(5)(i) to not provide the required Traffic Study. The waiver is hereby:

Granted \_\_\_\_\_ Denied \_\_\_\_\_

4. From Section 160-5.B.(4)[a] to not install curbing along streets. The waiver is hereby:

Granted\* \_\_\_\_\_ Denied \_\_\_\_\_

5. Partial waiver from Section 160-5.B.(4)[c] to not install sidewalks along streets. The waiver is hereby:

Granted\* \_\_\_\_\_ Denied \_\_\_\_\_

\*A partial waiver is granted subject to the Applicant agreement to pay a fee-in-lieu of installation of required sidewalks and curbs. The Applicant will pay a fee-in-lieu in the amount of \$22,935 for sidewalks and curbing for this land development only, and the Township shall utilize these funds towards neighborhood pedestrian and bicycle safety improvements. Granting of this partial waiver by the Township does not preclude and shall not prevent the Township from seeking sidewalk and curbing requirements in future land developments pertaining to the property.

---

This Resolution shall bind the Applicant, and the Applicant's successors and assigns. This Resolution does not and shall not authorize any construction of improvements or buildings exceeding those shown on the Plan. Furthermore, this Resolution, and the approvals/waiver and conditions contained herein, shall be rescinded automatically and deemed denied upon Applicant's failure to accept, in writing, all conditions herein imposed within ten (10) days of receipt of this Resolution, such acceptance to be evidenced by the Applicant's signature below. The Applicant understands that accepting the Plan conditions and failing to appeal any conditions, as drafted, within thirty (30) days of the approval date set forth below shall serve as a waiver of any such right to appeal and an acceptance of all conditions that, where applicable, shall bind future owners of the Property. The Applicant agrees that the interpretation of any conditions in this Resolution, if later challenged, shall be interpreted in favor of the Township.

**AGREEMENT IN LIEU OF ZONING, SALDO and SUBDIVISION  
APPLICATION/APPROVALS**

THIS AGREEMENT is made this \_\_\_\_\_ day of \_\_\_\_\_, 2025 (“**Agreement**”) by and between PECO ENERGY COMPANY, a Pennsylvania public utility corporation pursuant to 66 Pa. C.S.A. 102 with an address of 2301 Market Street, Philadelphia, PA 19103 (“**PECO**”) and HAVERFORD TOWNSHIP, a political subdivision of the Commonwealth of Pennsylvania with an address of 1014 Darby Road, Havertown, PA, 19083, and its successors (“**Township**”).

**WITNESSETH:**

**WHEREAS**, PECO is the owner in fee of Tax Parcel Number 22-05-0050-01-05.35 acre parcel (“**Substation Parcel**”) and Tax Parcel Number 22-05-0050-00-00.64 acre parcel (“**Additional Parcel**”), with street addresses of 0 Landover Road and 301 Landover Road (hereinafter collectively called the “**Property**”);

**WHEREAS**, as part of the expansion of PECO’s existing electric transmission substation at the Property, PECO proposes the following: (i) consolidation of the Substation Parcel and the Additional Parcel to constitute the Property as shown on the plan attached hereto and made a part hereof as **Exhibit A** (“**Consolidation Plan**”); use of unopened Moore Avenue; and (iii) confirmation of the existing and future use of the Property is legally permissible pursuant to the Public Utility Code exemption and therefore the zoning ordinance, subdivision and land development ordinance and applicable construction/building codes (collectively, the “**Township Ordinances**”)

**WHEREAS**, PECO maintains fee ownership of the Property for public utility purposes as a ‘public utilities facility’ serving as a substation and for a proposed expansion of the substation (“**Substation**”) as well as the construction of facilities for the transmission and distribution of electricity and gas and related improvements and for any other purpose pursuant to the public utility laws of the Commonwealth of Pennsylvania and as permitted by the Public Utility Commission (“**Utility Property**”);

**WHEREAS**, the Pennsylvania Public Utility Code, 66 Pa.C.S.A 101 *et seq.* (“**Public Utility Code**”) and case law (*Duquesne Light Co. v. Upper St. Clair TP*, 105 A.2d 287, 292-3 (Pa. 1954 and *PPL Electric Utilities Corp. v. City of Lancaster*, 214 A.2d 639 (Pa. 2019), preempts municipalities’ from regulating certain improvements proposed by a public utility pursuant to Township Ordinances and 34 Pa. Code §403.42(a-e) provides: a permit is not required for the installation, alteration or repair of generation, transmission, distribution, metering or other related equipment under the ownership and control of public service agencies;

**WHEREAS**, PECO intends to construct and install “**Facilities**” (meaning all the plant and equipment of a public utility, including all tangible and intangible real and personal property without limitation, and any and all means and instrumentalities in any manner owned, operated,

leased, licensed, used, controlled, furnished, or supplied for, by, or in connection with, the business of any public utility. 66 Pa.C.S.A. §102) on the Utility Property and NO buildings;

**WHEREAS**, the Township's Zoning Ordinance Section 182-802 provides: *F. Public service corporation exception*: "This chapter shall not apply to any existing or proposed building or extension thereof used or to be used by a public utility corporation if, upon petition of the corporation, the Pennsylvania Public Utility Commission shall, after a public hearing, decide that the present or proposed situation of the building in question is reasonably necessary for the convenience or welfare of the public";

**WHEREAS**, since there is no "building", PECO does not need to file with the Pennsylvania Public Utility Commission a Section 10619 Application (53 Pa. Stat. 10619) in accordance with the Public Utility Code;

**WHEREAS**, in recognition of PECO's status as a Pennsylvania public utility, the Public Utility Code, Pennsylvania case law, and the fact that there are no "buildings" being added to the Property, the parties have agreed to this Agreement in lieu of challenging the same and for the purpose of resolving any disputes regarding PECO's need for zoning, land development, and building permit approval under the Township Ordinances, the Township and PECO have agreed to the matters hereinafter set forth in this Agreement;

**WHEREAS**, this Agreement is based on the specific facts of this matter, and this Agreement and shall not be applicable to or effect any future determinations by the Township regarding any other properties, parties or circumstances, or any other requirements of the Township; and

**WHEREAS**, PECO has deposited with the Township such security to the satisfaction of the Township Engineer to guarantee to the Township payment on any review of the matters hereinafter set forth in this Agreement.

**NOW, THEREFORE**, for and in consideration of the foregoing and subject to the conditions aforesaid and hereinafter, and intending to be legally bound hereby, the parties hereto do agree as follows:

1. PECO covenants and agrees to submit to the Township for informational purposes only an abbreviated Site Plan ("**Site Plan**") a copy of which is attached hereto and incorporated herein as **Exhibit B** for the expansion of the Substation, notwithstanding that the Utility Property is totally exempt from Township Ordinances by PUC law governing Utility Facilities. The Site Plan shall show boundaries and front, side and rear yards setbacks, height of the Substation, fencing, and landscaping/screening, if any. Utility Facilities shall be enclosed if required by the professional standards governing public utilities and best practices for maintaining and operating the same. PECO agrees to develop the Utility Property as shown on the Site Plan attached as **Exhibit B**, unless changes are approved by the Township.

2. The Township covenants and agrees that, upon review of the Site Plan and supporting documentation by the Township Board of Commissioners, Township staff and

consultants that no approval, special exception or variance of the Township Ordinances shall be required by the Township for the Site Plan and the Consolidation Plan. Notwithstanding that no approval of the Consolidation Plan is required by the Township Ordinances as a result of this Agreement, the Consolidation Plan shall be registered with the Board of Assessment for Delaware County (to ensure proper mapping and indexing of the newly consolidated parcel) and recorded in the Office of the Recorder of Deeds for Delaware County and copy of the recorded Consolidation Plan shall be provided to the Township.

3. PECO agrees to initially fund an account with the Township in the amount of Five thousand (\$5,000.00) dollars in order to pay for/reimburse the Township for the commercially fees in accordance with the fee schedule currently in effect of the Township Engineer and Solicitor and if the initial amount is used PECO will fund an additional amount. PECO shall pay any costs associated with recording of the Consolidation Plan.

4. The Township confirms that PECO shall not be required to obtain any construction/building permits pursuant to the Township Ordinances related to the work on the Facilities or for the structures on the Utility Property related to the Facilities.

5. Notwithstanding anything in this Agreement to the contrary, PECO shall comply with the Township Ordinances as to the following matters: NPDES, Floodplain, Storm Water Management, Grading, Soil and Erosion, demolition, PennDOT highway occupancy permit, and, if any, water/sewer connections.

6. PECO agrees to install buffer plantings on the Property in accordance with the Vegetation Plan attached hereto as **Exhibit C**.

7. In the event that PECO violates any provisions of this Agreement, the Township reserves the right to exercise such rights and remedies as may be available to Township in law or equity and to issue Enforcement Notices or Cease and Desist or other appropriate Orders and PECO hereby agrees to comply therewith until such time as any deficiencies or violations have been corrected to the reasonable satisfaction of the Township.

8. PECO is not and shall not be considered to be an agent of the Township nor a joint venturer with the Township, and shall not represent to the contrary at any time.

9. This Agreement may not be assigned, conveyed, transferred or sold by PECO to any successor in title without the consent of the Township, which consent shall not be unreasonably withheld.

10. This Agreement represents the entire Agreement between the parties and may not be changed, modified or altered unless in writing and executed by the parties hereto with the same formality as this Agreement.

11. This Agreement shall be construed under the laws of the Commonwealth of Pennsylvania.

12. No change, amendment, or modification of this Agreement shall be valid or binding upon the Parties hereto unless such change, amendment, or modification is in writing and duly executed by all Parties. E-mails or any other electronic exchange shall not constitute a "writing" for the purposes of amending this Agreement.

13. If any term, condition, clause or provisions of this Agreement shall be determined or declared to be void or invalid in law or otherwise, then only that term, condition, clause or provision shall be stricken from this Agreement and in all other respects this Agreement shall be valid and continue in full force and effect.

14. Any failure of the Parties to this Agreement to enforce any of the provisions of this Agreement or to require compliance with any of its terms at any time during the pendency of this Agreement shall in no way affect the validity of this Agreement, or any part hereof, and shall not be deemed a waiver of the right of Parties thereafter to enforce any and each such provisions.

15. This Agreement shall extend to and bind the parties hereto, their heirs, executors, administrators, successors and assigns and the provisions hereof shall be deemed covenants running with the land; provided however, that the waivers set forth herein shall not apply to any subsequent owner or applicant of the Property, or any part thereof, for any work or activities to be undertaken by the subsequent owner or applicant.

16. Except as exempted by this Agreement, PECO shall conduct all of its operations and activities in accordance with all applicable local, state and federal laws, rules and regulations.

17. In the event litigation arises with respect to the enforcement of this Agreement, the Parties agree that the United States District Court for the Eastern District of Pennsylvania and the Court of Common Pleas of Delaware County, Pennsylvania, shall be the only two courts having jurisdiction to hear such matters.

18. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered shall be an original, but all such counterparts shall together constitute but one and the same instrument.

**RE: RETIREE HEALTH PLAN VALUATION (GASB 75) PROPOSAL FOR FISCAL YEAR  
ENDING (FYE) DECEMBER 31, 2024 AND DECEMBER 31, 2025**

Thank you for the opportunity to quote on the GASB 75 retiree health valuation for Township of Haverford ("Township"). Following the background information is a proposal showing data needed to conduct the valuation, a proposed timeline, a summary of the deliverable, and the fees associated with this project.

**BACKGROUND OF GASB 75**

GASB 75 replaced GASB 45 for fiscal year valuations starting after June 15, 2017. These changes parallel the accounting for pensions under GASB 67 and 68. For employers using a trust to fully or partially fund the OPEB benefit, GASB 74 is applicable and would replace GASB 43 for fiscal year valuations starting after June 15, 2016.

The disclosures under the new GASB standards are more robust, and should have been accounted for on the Township's balance sheet and income statement.

**THE DELIVERABLE**

We will review and analyze any changes to retiree benefits and support prior assumptions based on the Township's prior year valuation. Using this information, we will perform updated procedures and project out to roll forward amounts the expected future liability for all current and potential retired members.

From this analysis, we will issue a formal valuation report that will include the following information:

- All required GASB 75 disclosures
- Documentation of all plan provisions and assumptions applicable as of the fiscal year end used in the valuation
- A sensitivity analysis of the impact of a variation in assumed trend rates
- Projection of cash flows for the retiree benefit program
- A reconciliation of changes in liability from the prior actuarial report

A Full Valuation is required every two years and during the interim year, a more simplified Rollforward Valuation is performed. The Rollforward Valuation relies on the census data, assumptions, methods, and plan provisions from the prior year's Full Valuation. If there are significant retiree plan changes or unforeseen census swings, such changes may be reflected in the Rollforward Valuation.

**PROPOSED TIMELINE**

Once we have received all of the necessary data and determined its accuracy, we typically complete the retiree valuation within 3-4 weeks. If the Township has a hard deadline, please let us know and we will do our best to meet the requested timing needs.

**PROPOSED FEES**

The fee for the preparation for the FYE 2024 GASB 75 Full Valuation and the FYE 2025 Rollforward Valuation reports is \$13,200.

The above fee does not include additional ad-hoc analyses such as, but not limited to, modeling contribution or benefit changes, but we would be happy to perform any, if necessary, for a negotiated fee. Fixed fees for additional ad-hoc analyses are generally set based on a rate of \$300 per estimated hour required for the project. Prior to any ad-hoc project initiation, including any additional project items not included in the scope of services described herein, we will discuss the project scope and the proposed fixed fee with the Township.

**REQUIRED DATA**

In general, we need a complete current (active and retiree) census, historical claim and enrollment data, retiree plan design and eligibility, 24 months of claims and enrollment information (as well as fixed fees and premium equivalent rates) and retiree contribution requirements. A data request with a list of items required to perform the valuation will be provided in separately.

**AUDIT SUPPORT**

We will assist the Township with the audit process by responding to all auditor questions that arise upon the Township’s review of our retiree health valuation report. We are certain that our partnership with the Township and the Township’s auditor will ensure a smoother process through audit closure.

**OTHER CONSIDERATIONS**

I hope this addresses all the items that the Township needs to consider at this time. If the arrangements described in this letter are acceptable, please sign and return a copy of this letter to Gallagher at your convenience.

Sincerely,

Sean S. Kim

RE: Haverford Township Free Library Renovation & Addition Project- Applied Video Technologies, Inc.-  
Network Equipment

Mr. Burman,

In coordination with the Library a detailed scope of work was designed for the required network equipment to be installed in the newly renovated Library. We then reached out to Applied Video Technologies (AVT) as they own the Audio Visual scope of work via Costars for the project to provide a proposal.

After reviewing the proposal with the Library, AVT's price was determined to be of fair market value for the equipment. Attached please find AVT's proposal to furnish the network equipment throughout the Library building. We recommend the Township approve moving forward with AVT in the amount of **\$67,661.78 (Sixty-seven thousand six hundred sixty-one dollars and seventy-eight cents)**. Please note that this cost fits within the approved project budget for Information Technology scope of work.

Please let us know if you have any questions or comments.

Sincerely,

## Executive Summary

### Summary

Haverford Library has requested pricing for the following technology upgrades to the soon-to-be refurbished Haverford Library located at 1601 Darby Rd, Havertown, PA. Although the equipment is listed as a zero priced item, the quantity and specifications of equipment Spidernet will be setting up is listed herein. It's important that the specifications are not deviated from in order to ensure streamlined setup and management. For these reasons, this is why the quantity and specifications are included but are zero priced items. Spidernet will use this as their expected inventory list.

## Proposed Solution

### New Firewall:

A new enterprise grade firewall will be proposed. The old firewall that was in place is now located at the Manoa Shopping Center and it is 7 years old.

The following items will be performed when setting up the new firewall:

- Unbox and physically inspect unit/power up
- Activate the security services and device serial number inside Sonicwall activation portal
- Update firmware to most recent code update
- Build security policies for Zone Definitions and VLANs
- Optimize security services to best fit traffic patterns
- Enable content filtering policy to mirror prior configuration
- P-Touch label interface configurations on firewall and set predefined port settings for open ports on firewall
- Document configuration and configure remote access capabilities for Spidernet admin staff
- Dispose of unnecessary boxes into available dumpster or similar onsite. It is expected that onsite trash removal will be provided by the library so no additional transport for trash is included.

### New Network Switches:

2 new 48 port Power Over Ethernet + switches will be proposed. The estimated port density of both switches will be 96 ports (not including 8 expansion ports). The following items will be performed when setting up the new switches

- Unbox and physically inspect unit/power up
- Activate the cloud based management portal and register switches with HP
- Update firmware to most recent code update

- Cascade the switches using DAC 10GB uplink cable to interconnect them and test connectivity
- Segment the switch to utilize VLAN configuration that can be seen from designated ports
- Confirm setup is visible in the HP cloud console
- Designate locations where the new wireless access points will be plugged in
- Document technical configuration
- Dispose of unnecessary boxes into available dumpster or similar onsite. It is expected that onsite trash removal will be provided by the library so no additional transport for trash is included.

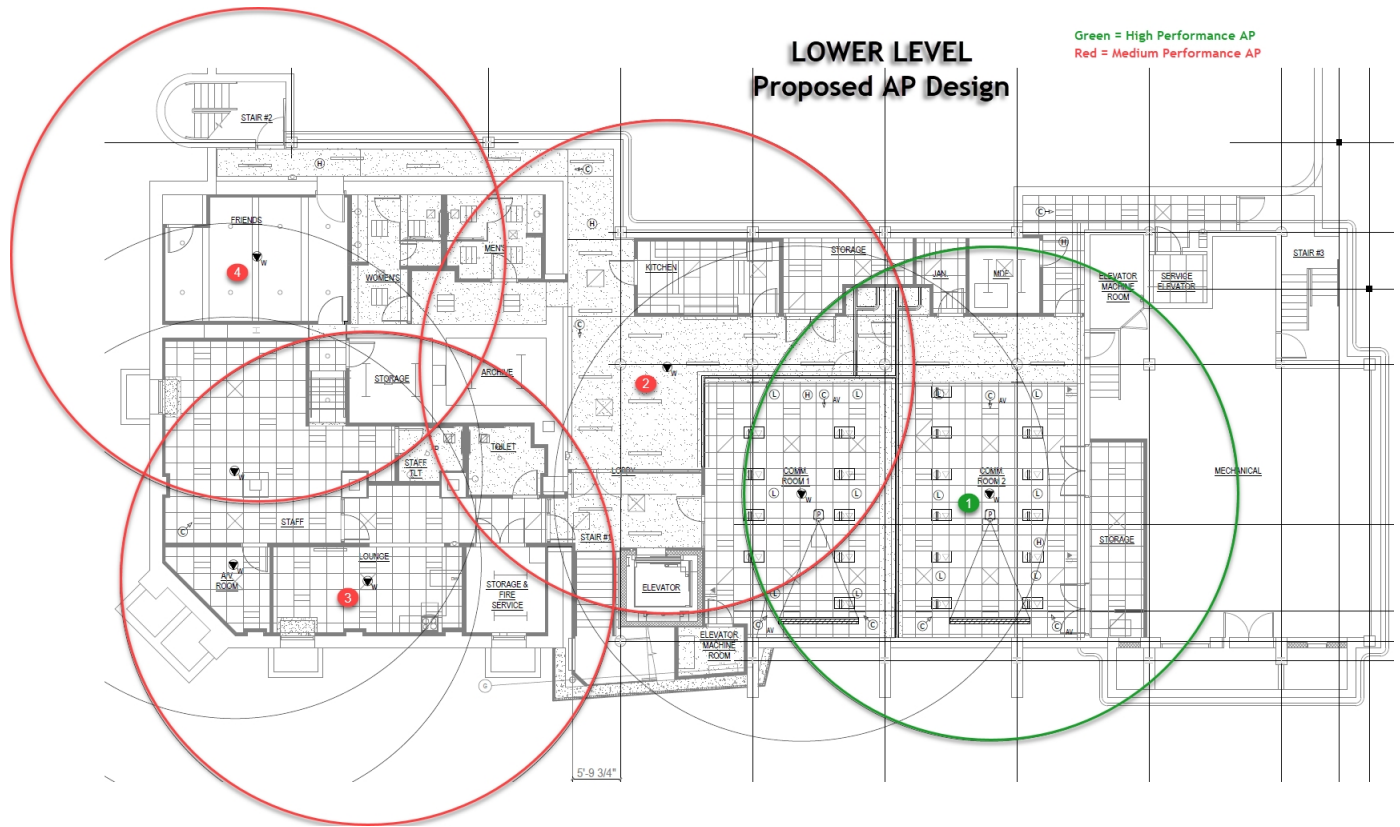

#### New Wireless Access Point Antennas:

18 new Ruckus Wireless cloud based access points will be set up. The following items will be performed:

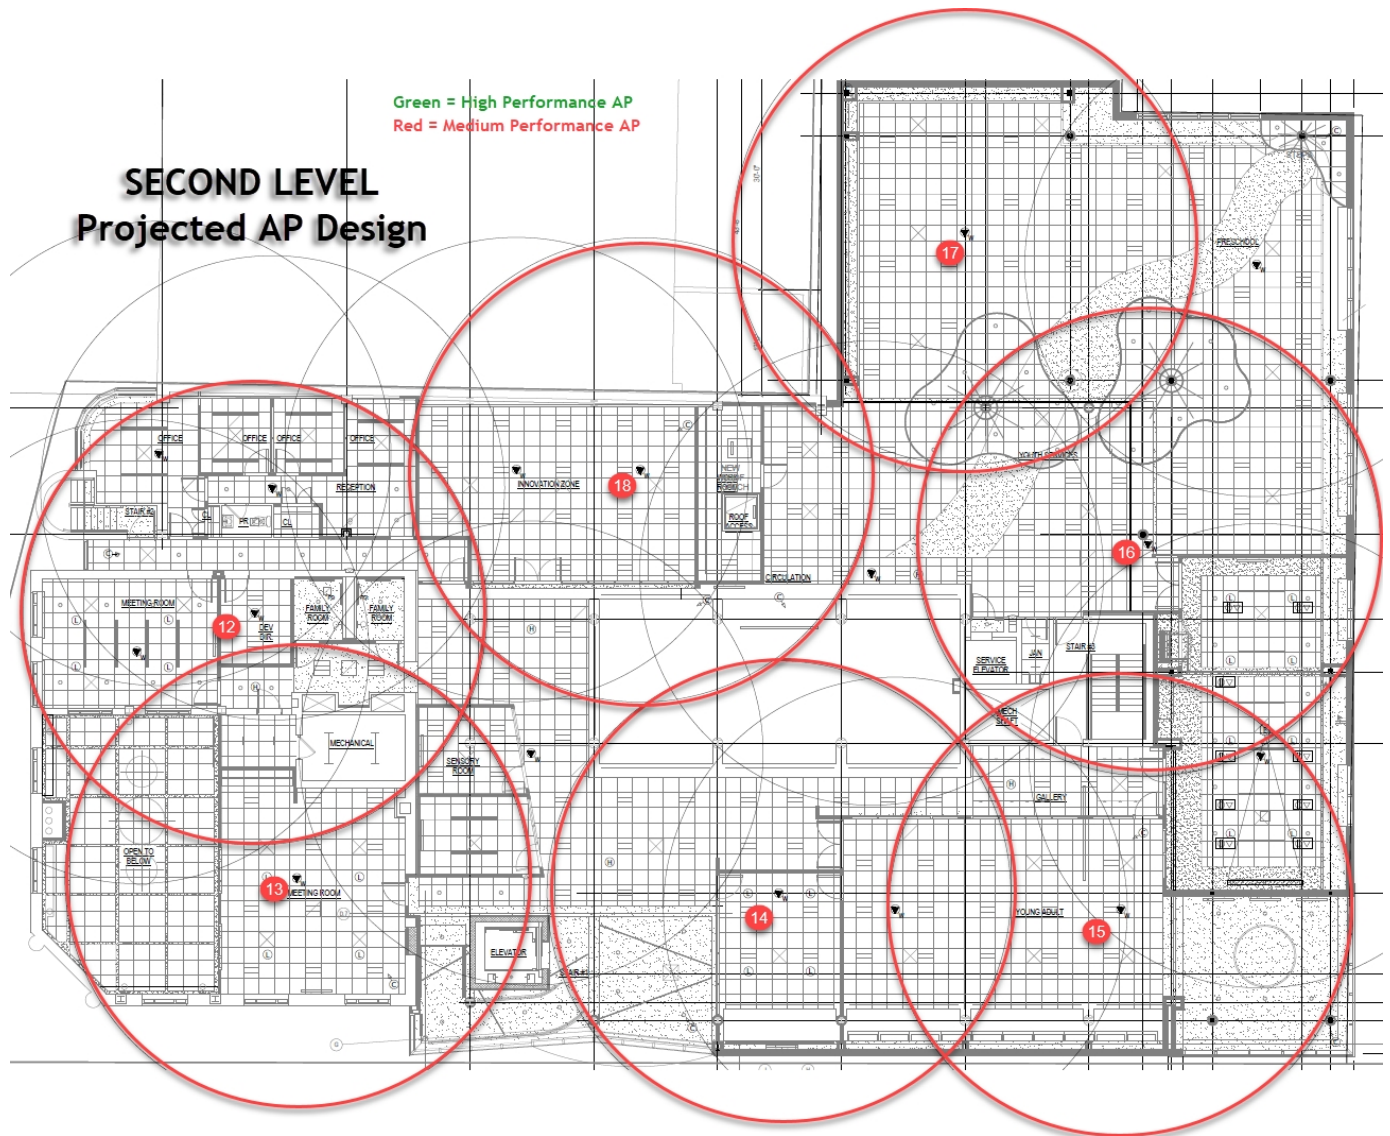

- Activate and add 18 new Ruckus 5 Year subscription licenses to the current Haverford Library Ruckus Cloud Portal
- Unbox access point units and connect to network
- Register access point with serial number into the Ruckus Cloud Portal and ensure a license is granted to the access point
- Create PDF of existing proposed access point locations, provide names and designate numbers to the access point locations on all 3 floors
- Physically P-Touch Access Point with location and name.
- Configure SSID settings in Ruckus web interface to mirror existing configurations used at the temp offices for convenience and ease of training
- Configure zones in Ruckus Cloud Management tool to optimize security configurations and traffic patterns
- Configure high performance/high density antenna located in Communications room on lower floor
- Test and debug wireless configuration
- Build out live heatmap from blueprint drawings inside of Ruckus Web Based Tool and place designated access points in defined locations
- Electrical contractor will be responsible for the mounting of antennas. That said, Spidernet will provide electrical contractor printed pdf maps and labeled antennas so they can mount the AP units in the correct locations/address any questions electrical contractor may have.
- Spidernet will provide support to electrical contractor for any needed clarification and guidance for the safe wifi access point location, protection dome for the ceiling mounted outdoor antenna in parking lot, and the outside parking lot antenna and accessories.
- Dispose of unnecessary boxes into available dumpster or similar onsite. It is expected that onsite trash removal will be provided by the library so no additional transport for trash is included.

Below is the projected locations of the antennas on each floor of the projected library

#### New Laptops:

12 new Windows 11 Professional laptops will be set up. The following items will be performed:

- Update BIOS firmware update
- Remove any unnecessary software shipped with machine
- Optimize current Educational package requirements with Microsoft so that Haverford Library can more broadly utilize the Microsoft Office 365 educational solutions
- Establish updated Office 365 licensing package to more granularly segment access to files and permissions
- 1 Azure Office 365 licensed user account per staff user on designated laptops
- Install Office 365 Application Software Suite associated with designated user
- OneDrive and Sharepoint initial setup
- Advanced endpoint detection software

- Remote management software
- Update the asset management and controls inside reporting and lifecycle management tools.
- Dispose of unnecessary boxes into available dumpster or similar onsite. It is expected that onsite trash removal will be provided by the library so no additional transport for trash is included.

\*\*\*Note\*\*\* Spidernet should work with the library in the future to evaluate the licensing options as it appears the Microsoft 365 account is currently pending academic eligibility for discounted prices on licensing. With the right alignment and combination of educational products, Haverford Library could see substantial discounts to enhanced Microsoft offerings. Spidernet is requiring that Haverford Library appropriately license all users who will need access to the computers in Office 365 for cybersecurity best practices and enhanced security. The current library package consists of 5 x Office 365 E3 for Faculty licenses (Month to month payment). Spidernet proposes we facilitate and optimize this configuration. This is the message displaying in the Haverford Library Microsoft Portal which should be corrected.

## Your products

① Your school's academic eligibility is pending. Once your school's academic eligibility has been confirmed, you will see education products with discounted prices on the Purchase services

\*\*\*Note\*\*\* Email routing through Office 365 is out of scope to this proposal, but can be implemented if requested. It is recommended that the current email system be migrated over to a more comprehensive email system in Office 365 to centralize security and administration.

\*\*\*Note\*\*\* The existing 4 x HP laptops are running Windows Home Edition so therefore they will not have the ability to configure for Microsoft Azure Office 365 Authentication. The reconfiguration of the HP laptops to Azure Authentication is out of scope of this proposal.

### New Docks and Monitors:

12 new docking stations, 7 new WIRED keyboard/mouse combo kits, 7 new monitors, and commercial grade surge protectors will be set up. There are two key reasons why a surge protector is being provided. 1, to ensure that if a power spike comes through the line, the "joule" rating on the surge will protect the connected equipment (most cheap surge protectors have very low joule ratings making them almost useless). 2, the surge protector provides spaced plugs and adequate plug availability in a convenient and more ergonomic way. The following will be performed:

- Unbox all monitors and ensure proper count and count up total to match approved purchase number
- Unbox all docking stations and ensure proper count and count up total to match approved purchase number
- Unbox wired keyboard/mouse combo kits and count up total to match approved purchase number
- Unbox surge protectors and count up total to match approved purchase number
- Install surge protectors in necessary areas.
- Update firmware to docks to ensure stability of operation
- Mount monitors on library purchased VESA monitor arms in designated locations (12 monitors total)
- Organize as appropriate docking stations, monitors, and keyboard/mouse combo kits in each designated location. Wired keyboard/mouse combos will be used to reduce the wireless noise in air which could negatively impact the proposed wireless network.
- Dispose of unnecessary boxes into available dumpster or similar onsite. It is expected that onsite trash removal will be provided by the library so no additional transport for trash is included.

A general idea of the layout on the desk is pictured below, with the exception of the keyboard and mouse having usb-a wires. Note that the laptop pictured is not the laptop that is proposed.

\*\*\*Note\*\*\* The existing 4 x HP laptops do not have any designated type of docking station. We will use the proposed Dell docks as a Universal Docking station which will create uniformity of equipment and reduce training and compatibility issues over time. The Dell docking stations will be installed and used for the 4 x HP laptops. The only limitation will be that universal docks working with the designated consumer grade laptops can only utilize 90 Watts of power (instead of the 130 Watts if used with the designated Dell laptops), which means they may not be able to drive 2 simultaneous external monitors (depending on video resolution). This is not a limitation with the Dell equipment, but a limitation of the HP laptop model purchased.

#### New Telecom Rack:

The Haverford Library will provide 1 APC AR3340 rack located in the proposed lower level MDF location which will allow for equipment and cabling to be neatly self contained, secured, and structured in a defined area. All ethernet data cables related to non-county technology will be run back to the lower level MDF location by Haverford Library. A second rack will be installed for county equipment, however any work outside of the spidernet issued rack is out of the scope of this proposal. Patch panels, ethernet cabling installation and termination, and numbering/documentation on patch panels is out of the scope of Spidernet's proposal but will be installed by Haverford Library contractors and shared with Spidernet. Additionally, data ethernet patch cables leading to and from the Spidernet proposed switches and telecom gear will be purchased by the Haverford Library contractors, and made available for Spidernet to plug in necessary cables into the Spidernet proposed switches, cable managers, and firewalls. It is expected that the patch panels will be mounted inside the non-county Spidernet issued APC AR3340 rack. The following items will be performed in the new non-county telecom rack:

- APC 1500 battery unit will be unboxed and installed in designated location in rack
- NEMA 5-15 horizontal Power Distribution Unit will be unboxed and installed in designated location in rack
- NEMA 5-15 vertical Power Distribution Unit will be unboxed and installed in designated location in rack
- Power extension cable will be run from inside rack, over wire bridge, and to wall mount outlet to supply the main power to the Spidernet proposed APC 1500 battery unit

- Install firewall in designated location of rack and route power and ethernet cables through wire channels
- Install 2 x switches in designated location of rack and route power and ethernet cables through wire channels
- Cascade the switches using DAC 10GB uplink cable to interconnect
- Using Haverford Library issued patch cables, route cat6 ethernet patch cables to patch panels and into designated ports in switching gear
- Confirm power wattage readings for Ruckus antenna access points through switch ports are within optimized thresholds
- Velcro strips will be used as necessary to ensure cleanliness of wires leading to and from switches
- 2 x 2U horizontal cable managers will be unboxed and installed in designated location in rack
- Document physical layout of rack gear

An example of the AR3340 rack with patch cables leading into switches is pictured below for reference.

#### Asset Management Solution:

Asset management for IT equipment has become an increasingly important subject due to work from home arrangements, updated cybersecurity protocols, and data asset management governance. Spidernet is proposing an asset management control solution to achieve and maintain an appropriate protection of physical IT assets beyond just non-county issued laptops. With the assistance and guidance from Spidernet, asset tags will be purchased by the Haverford Free Library per the specifications due to their rugged and resilient design. These tags are critical to the overall product for scanning and inventorying the IT equipment listed.

All newly installed IT assets will be inventoried, and a segregation of duties will be established. All the newly installed IT assets will be accounted for and have a nominated owner (IAO). Owners will be identified for all IT assets and the responsibility for the maintenance of appropriate controls will be assigned. The implementation of specific controls will be delegated by the owner as appropriate, but the Information Asset Owner (IAO) will be responsible for the proper protection of the assets. The IT Head of the Business Unit will have the responsibility of overall governance.

1. Head of Business Unit- Sukrit Goswami
2. Haverford Library IAO- Amanda Folwell

*The IAO will be responsible for the following:*

- The execution of the defined process for physical sticker, serial number, documentation, enforcement of asset tagging and asset management.
- The execution of the defined process for assisting Spidernet in the updating of the assets when equipment is decommissioned so records are up to date.
- The execution of the defined process for new equipment that will need to be shipped to the office, then tagged.

*Scope:*

- Gain access to asset tags to prepare for allocation to equipment
- Build out Asset Tiger interface with appropriate information and enter any tag credits
- Asset tags will be placed on IT assets for existing equipment with guidance and training from Spidernet and the IAO.
- A web-based asset control software tool called Asset Tiger will be pre-configured by Spidernet staff, and IAOs will be provided necessary access to perform their responsibilities within the portal. OTP will also be established for the IAOs for their logins.
- IAO will be trained on how to perform their duties over a Teams video meeting by Spidernet. During this time, newly purchased IT assets worth over \$50 will be tagged and equipment of serial numbers and assets will begin to be populated. Newly purchased assets will be documented with iPhones and an iPhone app which will expedite the inventory and documentation process.
- Spidernet will act as the Information Asset Custodian (IAC), which is the entity who is held responsible for implementing the appropriate protection and the maintenance of the IT assets.
- A starting number of physical asset tags will be located and secured by the IAO. If more asset tags are needed the IAO can submit a ticket to the Spidernet Helpdesk at [help@spidernetconsulting.com](mailto:help@spidernetconsulting.com) and we will facilitate the purchase of more asset tags.
- The asset tags will come with a special cut on them which will prohibit them from being taken off once placed on equipment for security purposes.

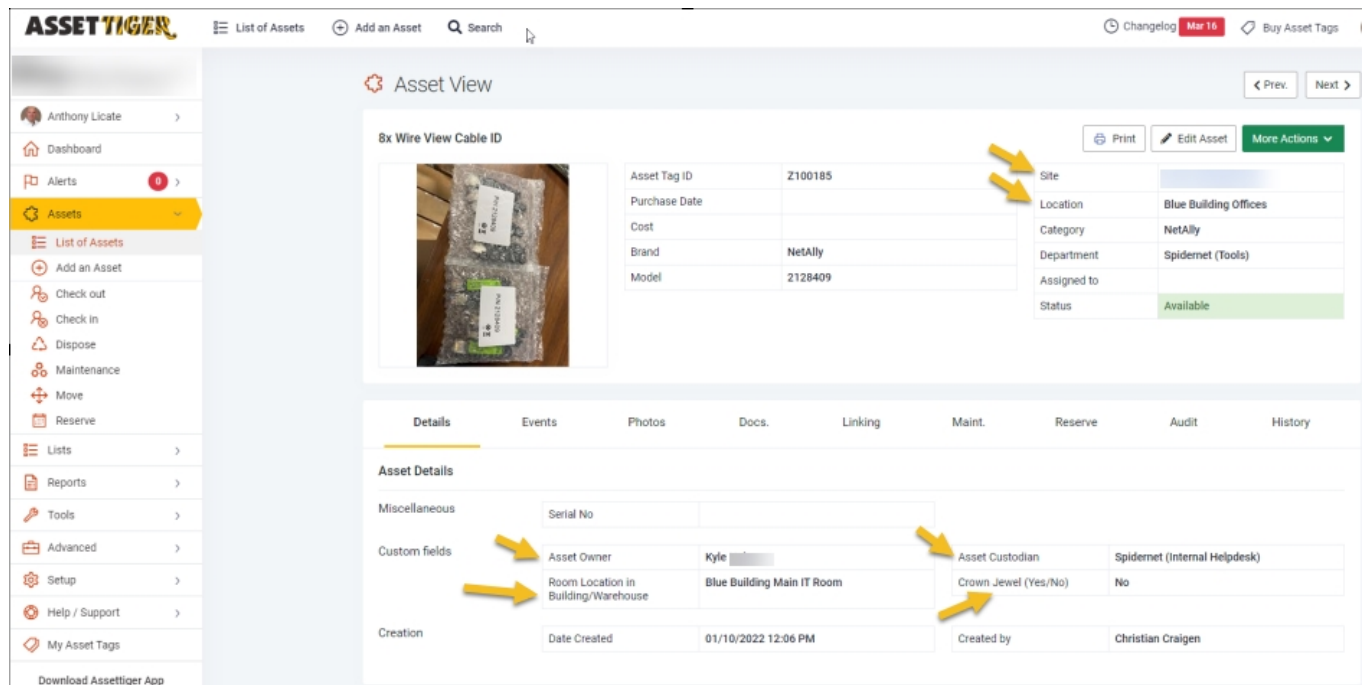

An example of the rugged asset tags and asset management web interface is pictured below for reference.

#### Technical Project and Resource Management:

It's important that the technical aspects of this scale of a project is communicated continually with all parties (internally and externally) to streamline the execution of the requested solution. Spidermet has tiered tasks to optimize the resource allocations to the proposed project. Our Technical lead to this project will perform the following:

- Manage and communicate technical execution of project phases with Spidermet staff, library staff, Haverford project managers, and library contractors
- Outline technical procedures and define project plan layout for management and technical duties
- Manage project responsibilities with stakeholders
- Allocate technical resources to project tasks based on skillset
- Maintain project time frames and status reports

RE: Haverford Township Free Library Renovation & Addition Project- Prime Contractors Substantial Completion

Mr. Burman,

In coordination and discussions with the Library, Township, Township Solicitor and the four Prime Contractors; it is recommended that the Board of Commissioners approve a zero-cost time extension from the originally agreed upon substantial completion date of March 7, 2025 to March 28, 2025. Specific language is currently being drafted by the Township Solicitor to all Prime Contractors which will be executed via an AIA Change Order as per each Prime Contractor's contract. Overall, this time extension does not impact the projected Spring opening date of the Library.

Please let us know if you have any questions or comments.

Sincerely,

*Kenneth C. Matthews*
