Proclamation Recognizing April as Autism Acceptance Month in Haverford Township

Whereas, autism has been recognized and studied since the early 20th century, and over the decades, growing awareness, research, and advocacy have contributed to better understanding and support for individuals on the autism spectrum; and

Whereas, Autism Awareness Month was nationally recognized in 1988 by President Ronald Reagan to increase public understanding of autism spectrum disorder (ASD)—a developmental disability that can affect communication, behavior, and social interaction—and to promote early diagnosis and intervention, as well as support for individuals and families; and

Whereas, autism is a spectrum, meaning it manifests differently and to varying degrees in each individual, and requires a broad and flexible approach to education, healthcare, and community inclusion; and

Whereas, there is a growing call to shift the focus from awareness alone to true inclusion and celebration of autistic individuals as valued members of our community who bring important talents and new perspectives to our society; and

Whereas, Autism Acceptance Month encourages us to honor neurodiversity, challenge outdated stigmas, and affirm that all perspectives are valid, all needs deserve support, and all individuals should be empowered to thrive; and

Whereas, meaningful inclusion requires moving beyond the idea of "fixing" individuals and instead calls for the creation of environments that accommodate different ways of thinking, learning, and interacting. Autistic and neurodivergent people do not need to be changed—they need to be understood, respected, and supported through thoughtful accommodations that allow them to fully participate in daily life; and

Whereas, Haverford Township celebrates the strengths, talents, and experiences of autistic individuals—both speaking and non-speaking—and affirms its commitment to being a community where every person is valued, included, and supported; and

Whereas, the Township is committed to expanding inclusive programs, services, and infrastructure to ensure accessibility and opportunity for residents of all abilities; and

Whereas, by recognizing Autism Acceptance Month, Haverford Township reaffirms its dedication to building a community rooted in dignity, respect, and belonging for every resident.

Now, Therefore, Be It Resolved, that the Board of Commissioners of the Township of Haverford hereby proclaims April 2025 as Autism Acceptance Month in the Township of Haverford, and

encourages all residents to:

- Promote understanding and inclusion,
- Learn from autistic-led organizations and individuals,
- Uplift voices from across the spectrum, and
- Advocate for greater access and representation in education, healthcare, employment, and community life.

Be It Further Resolved, that Haverford Township remains committed to fostering a welcoming and inclusive community by ensuring that all residents—regardless of ability—are encouraged to participate fully in the civic, cultural, and recreational life of our Township.

Proclaimed this 14th day of April, 2025.

Proclamation Recognizing Arbor Day in Haverford Township

Whereas, in 1872, J. Sterling Morton proposed to the Nebraska Board of Agriculture that a special day be set aside for the planting of trees, and

Whereas, this holiday, called Arbor Day, was first observed with the planting of more than a million trees in Nebraska, and

Whereas, Arbor Day is now observed throughout the nation and the world, and

Whereas, trees can reduce the erosion of our precious topsoil by wind and water, cut heating and cooling costs, moderate the temperature, clean the air, produce life-giving oxygen, and provide habitat for wildlife, and

Whereas, trees are a renewable resource giving us paper, wood for our homes, fuel for our fires and countless other wood products, and

Whereas, trees in our city increase property values, enhance the economic vitality of business areas, and beautify our community, and

Whereas, trees, wherever they are planted, are a source of joy and spiritual renewal.

Now, Therefore, be it Resolved that the Haverford Township Board of Commissioners, do hereby proclaim the last Friday in April as Arbor Day in Haverford Township, and urge all citizens to celebrate Arbor Day and to support efforts to protect our trees, parks and woodlands; and

Be it Further Resolved that the Board of Commissioners of the Township of Haverford urge all citizens to plant and care for trees to gladden the heart and promote the well-being of this and future generations.

Proclaimed this 14th day of April, 2025.

Re: EBuild Construction, LLC Darby Road Subdivision (Vacant Lot Adjacent to 4008 Darby Road) LPSS Forcemain Installation Final Inspection Request & Final Escrow Release Request Request for acceptance of Dedication by Haverford Township

Dear Mr. Burman:

We are writing to inform you that the work and final punch list items for the LPSS Forcemain Installation for the Darby Road Subdivision have been completed.

We would respectfully request a final inspection of improvements and Final Release of escrow in the amount of \$46,147.29 as outlined within the enclosed documents. Any Engineering or Legal Escrow amounts outstanding from the initial \$4,614.73 Engineering/Legal escrow mount is also requested to be released. It should be noted that while a recommendation for release letter was written on 1/17/2024 by the Haverford Township Engineer, the bank has confirmed that no release was ever requested, nor released, from the bank. Therefore, the full escrow amount is still in effect as noted above and requested for release at this time.

Along with the final release of escrow, we would also request that the Township accept dedication of the Low Pressure Sanitary Sewer and related appurtenances as outlined on the approved plans and as installed in the field.

Should you have any further comments or questions, please feel free to contact me.

Very Truly Yours,

Michael J. Ciocco, P.E. For Catania Engineering Assoc., Inc.

Township of Haverford Ordinance No. 3014-2025

An Ordinance of Haverford Township, Delaware County, Commonwealth of Pennsylvania, amending Chapter 37, "Wards and Precincts," to amend portions of the boundaries of Ward Precincts 3-4 and 4-4 and the Ward Map to reapportion the Township's voting districts to contain nearly equal electors as practicable as officially and finally reported in the 2020 Federal Decennial Census.

Whereas, the Home Rule Charter of the Township of Haverford ("Township") and the Pennsylvania First Class Township Code authorizes the Haverford Township Board of Commissioners ("Board") to make and adopt ordinances consistent with the constitution and laws of this Commonwealth and with the Haverford Township Charter when necessary for the proper management, care and control of the Township and the maintenance of peace, good government, health and welfare of the Township and its citizens;

Whereas, Article IX, Section 11 of the Pennsylvania Constitution, and Section 12.05 of the Municipal Reapportionment Act (53 Pa.C.S.A. §§ 901, *et seq.*), require that all municipalities in which the elected officials are elected by districts, and not elected atlarge, must examine the distribution of their voting districts to ensure that they are as nearly even in population as practicable after each decennial census is reported;

Whereas, pursuant to the Act, and in accordance with Sections 202 and 203 of the Township Charter, the Township has nine Township Commissioner Districts, referred to as "wards," that form a compact, contiguous territory following distinctive geographical boundaries. Such wards are required to contain, as nearly as possible, equal numbers of residents as determined by the latest official census of the United States Bureau of the Census, and may be changed in accordance with the law;

Whereas, legal guidance and precedent establishes that, to ensure an equal number of residents in each ward (as nearly as possible), no ward should deviate more than ten percent (10%) from the average population;

Whereas, the results of the decennial census revealed that Haverford Township voting districts are imbalanced in the number of electors, such that Ward 4 deviated above the average population by 10.6%, and Ward 3 deviated below the average population by 6.5%;

Whereas, relocating 425 electors from Ward 4-4 to Ward 3-4 would result in a deviation of approximately 3.1%, which would match the average deviation of all wards;

Whereas, such relocated electors would be located from Census Block's 1000, 1001, 1005, 1006, 1010, 1011, and 1012;

Whereas, it has been determined that such a relocation would not violate the Voting Rights Act, nor would the relocation have a substantial impact on election outcomes;

Whereas, for the above stated reasons, and to advance the health, welfare, and constitutional rights of the voters of Haverford Township, and to comply with the Pennsylvania Constitution and the Municipal Reapportionment Act, the Board desires to amend its Code of Ordinances, Chapter, 37, Wards and Precincts, to amend portions of the boundaries of Ward Precincts 3-4 and 4-4 and the Ward Map to reapportion the Township's voting districts to contain nearly equal electors as practicable as officially and finally reported in the 2020 Federal Decennial Census;

Whereas, the Township finds that the proposed amended districts, and the entire proposed Ward Map, would still result in contiguous and compact boundaries and that the nine Township wards would divide the Township electorate into nine evenly numbered voting districts;

Now, Therefore, be it Ordained and Enacted by the Haverford Township Board of Commissioners, that the voting district / ward map for Haverford Township is hereby repealed and replaced with the Ward Map attached hereto as **Exhibit "A"**, which shall be the official ward and voting district / precinct map of Haverford Township, Delaware County.

Now, Therefore, be it Further Ordained and Enacted by the Haverford Township Board of Commissioners, that the Haverford Township Code of Ordinances shall be amended as set forth below:

Section I: Amendment of the Code. The Haverford Township Code of Ordinances, Chapter 37, Wards and Precincts, is amended as follows: Section 37-3, Ward No. 3, shall be amended to reflect the new Ward boundary shown on the Ward Map, with the written description amended to provide as follows:

The boundaries of Ward No. 3 shall be as shown on the attached map which is made part of this chapter, the written description thereof being as follows: Beginning at the point of intersection of the center of Philadelphia and Western R.R. Township of Haverford

Resolution No. 2447-2025

Resolution of the Township of Haverford, County of Delaware, Commonwealth of Pennsylvania, for Preliminary/Final Land Development Plan Approval for the Haverford School District for a Building Addition, Parking Area and Stormwater Management at Coopertown Elementary School at 800 Coopertown Road, Haverford

Whereas, Act 247 of 1968, the Pennsylvania Municipalities Planning Code, empowers the Haverford Township Board of Commissioners to regulate subdivisions and land developments within the Township; and

Whereas, Haverford Township desires orderly and appropriate land use and development to protect the health, safety, and welfare of residents; and

Whereas, The Haverford Township School District ("Applicant") desires to develop the Coopertown Elementary School located at 800 Coopertown Road, Haverford, PA, Delaware County, known as D.C. Folio No. 22-05-00426-00 ("Property") to construct a 12,000 square foot addition and associated parking lot and stormwater management system ("Project"). The Property is zoned INS Institutional District and is located in the 5th Ward; and

Whereas, the Preliminary / Final Subdivision and Land Development Plan submitted for the Project was prepared by K&W Engineers, Harrisburg, PA, latest plan revision dated February 21, 2025 ("Plan"); and

Whereas, the Planning Commission of Haverford Township, at the public meeting of Thursday, March 13, 2025, voted to recommend approval of the Plan and the requested waivers subject to the comments contained within the February 26, 2025 review letter prepared by Pennoni Associates; and

Whereas, said Plan has been submitted to the Board of Commissioners of the Township of Haverford for consideration in accordance with the Pennsylvania Municipalities Planning Code and pursuant to the Haverford Township Subdivision and Land Development Regulations, Ordinance 1960, Chapter 160, Sections 4. A and B.

Now, Therefore, Be It Resolved by the Board of Commissioners of the Township of Haverford that the Plan is APPROVED subject to the following conditions:

A. Conditions of Plan Approval.

- The Applicant must ensure that the Plan addresses any outstanding comments in the February 26, 2025 Township engineer review letter prepared by Pennoni Associates. Further, the Applicant shall comply with future review letters related to future Plan revisions made in response to prior comments to the reasonable satisfaction of the Township Engineer.
- 2. The Applicant shall comply with the following condition made subject to the Planning Commission recommendation on March 13, 2025 as follows:
 - The Applicant shall provide a fire hydrant as requested by the Township Chief Fire Code Official's Memorandum dated February 25, 2025.
- 3. A subsequent recordable final plan shall be submitted for internal Township review that addresses all Township Engineer review letter requests, further Plan details and clarifications, or revisions based upon the terms of this Resolution.
- 4. Applicant must comply with any applicable requirements of the Delaware County Conservation District, Pennsylvania Department of Environmental Protection, Pennsylvania Department of Transportation (including, but not limited to, obtaining any necessary Highway Occupancy Permits and Signal Permits required by PennDot), United States Environmental Protection Agency, or any other necessary outside agency, and obtain any necessary planning modules, approvals, or permits from such agencies, or enter into any required agreements such agencies require, before the Plan is recorded.
- 5. Pursuant to Section 78-51 of the Township Code, Applicant shall pay the required contribution to the Township Stormwater BMP Operation and Maintenance Fund in the amount of \$2,200.
- 6. The conditions of this Resolution must be satisfied, and all fees and costs set forth in this Resolution shall be paid, before the issuance of a building permit for the Project.
- 7. Applicant must complete and record all required easements and/or maintenance agreements or declarations, including, but not limited to, a stormwater management facilities operation and maintenance agreement (requiring, in part, perpetual maintenance of all stormwater management facilities installed according to the Plan by the landowner of the Property) in forms reasonably satisfactory to the Township Engineer and Township Solicitor prior to recording the Plan. Applicant will provide all necessary legal descriptions for any necessary easements.

- 8. Prior to recording the Plan, the Applicant shall execute a Land Development and Financial Security Agreement to guarantee the installation of all public improvements associated with the Project ("Improvements") on a form drafted by the Township Solicitor. Financial Security shall take the form of a cash escrow held by the Township, an irrevocable standby letter of credit in a form acceptable to the Township Solicitor, or a tri-party agreement in a form acceptable to the Township Solicitor. If Applicant were to post financial security in the form of a bond, the Township Solicitor shall have the unconditional right to review the bond and must approve the conditions and language of the bond. Further, the bond shall be issued by a "AAA" rate surety, or its equivalent, qualified to do business in Pennsylvania, and shall contain language stating that the bond is to be payable upon demand, absolutely, and unconditionally, and if payment is not made, that the bonding company shall be responsible for reasonable attorneys' fees and costs that are incurred to collect on the bond, plus interest at the annual rate of twelve (12%) percent, for so long as the bond remains unpaid. A bond or letter of credit is required to automatically renew annually until the Improvements detailed on the Plans are completed, any maintenance periods have passed, and the final release is issued by the Township, subject to partial releases being permitted in accordance with Pennsylvania Municipalities Planning Code. To ensure automatic renewal, a bond or letter of credit shall include a 90-day Evergreen Clause in a form acceptable to the Township Solicitor.
- 9. Financial security shall be posted in the amount of 110% of the total cost of the Improvements. The Applicant agrees that the Improvements shall include, but shall not be limited to, streets, parking areas, striping, drive aisles, curbs, water mains, sanitary sewer pipes, manholes and appurtenances thereto, stormwater facilities, rain gardens and appurtenances, grading, erosion and sediment controls, public lighting, required trees, shrubs, plantings and landscape buffering, monuments, pins, sidewalks, or other public improvements designated by the Township Engineer in accordance with the Pennsylvania Municipalities Planning Code. For a period not less than 18 months after Township Engineer approval of the Improvements, financial security shall remain posted in the amount of 15% of the total cost of the Improvements that are to be dedicated to the Township, if any.
- 10. All outstanding Township fees, including review and recording costs and fees, Township Engineering fees, and Township legal fees, and any other professional fees associated with the review and approval of the application and Plan shall be paid in full before the Plan is recorded, in accordance with the Pennsylvania Municipalities Planning Code.
- 11. Prior to recording the Plan, and in addition to the financial security posted for the Project, Applicant shall deposit with the Township or otherwise establish a reasonable sum of monies with the Township, in an amount to be reasonably

determined by the Township Engineer, as to be further described in the Land Development and Financial Security Agreement, for the reimbursement of the Township's reasonable engineering, inspection, legal, and related administrative costs and expenses related to the further reviews, inspections, and development of the Project, in accordance with the Pennsylvania Municipalities Planning Code.

- 12. A note shall be included on the final recorded Plan listing any waivers granted by the Board of Commissioners.
- 13. Except for the conditions and requirements placed upon the future development as specified in the Plan and herein, this Resolution shall not apply in any way to any future construction or land development on any lot or the consolidated lot. Upon any applicable construction or commencement of development on the consolidated lot, the Applicant will obtain any other necessary Township approvals, relief, and/or permits, and pay all applicable fees, unless additional relief is obtained.
- 14. The terms and conditions of this Resolution shall run with the land and shall apply to any assignee, transferee, or other successor in interest in the Property or the development of the Project. This Resolution or a memorandum of this Resolution may be recorded against the Property by the Township, or a subdivided portion of the Property, at the Township's sole discretion, to which the then-current landowner of the Property shall be deemed to have consented to such recording. Regardless of whether this Resolution is recorded, the Township shall have the right to enforce any violations of the conditions of this Resolution as a violation of the Prony of the Property and Chapter and/or pursuant to Section 616.1 of the Pennsylvania Municipalities Planning Code.

B. Waivers. The Applicant has requested the following waivers from the Township's Subdivision of Land Chapter pursuant to a written waiver request. An indication that a waiver was granted reflects that the Township has determined that the Applicant has sufficiently established that the literal enforcement of the provision waived will exact undue hardship because of peculiar conditions pertaining to the land in question, and that the waiver is not contrary to the public interest or otherwise contrary to the purpose and intent of the Township Code, as demonstrated and explained by appearances of the Applicant before the Board at public meetings and through the waiver request letter(s) submitted. A lack of indication of the decision on the waiver after the Township has executed this Resolution shall be interpreted to mean that the waiver was granted, unless the minutes of the associated Township meeting reflect otherwise:

1. From Section 160-3.B to request a waiver to submit a preliminary plan simultaneously with a final plan. The waiver is hereby:

Granted _____ Denied ____

2. From Section 160-4.E(5)[e](3)to not provide the required plan details within 200 feet of the site. The waiver is hereby:

Granted _____ Denied ____

5. From Section 160-5.B.(4)[a] to not install curbing along streets. The waiver is hereby:

This Resolution shall bind the Applicant, and the Applicant's successors and assigns. This Resolution does not and shall not authorize any construction of improvements or buildings exceeding those shown on the Plan. Furthermore, this Resolution, and the approvals/waiver and conditions contained herein, shall be rescinded automatically and deemed denied upon Applicant's failure to accept, in writing, all conditions herein imposed within ten (10) days of receipt of this Resolution, such acceptance to be evidenced by the Applicant's signature below. The Applicant understands that accepting the Plan conditions and failing to appeal any conditions, as drafted, within thirty (30) days of the approval date set forth below shall serve as a waiver of any such right to appeal and an acceptance of all conditions that, where applicable, shall bind future owners of the Property. The Applicant agrees that the interpretation of any conditions in this Resolution, if later challenged, shall be interpreted in favor of the Township.

LOCATION:

MUNICIPALITY:

TYPE OF REVIEW:

PROPOSAL:

RECOMMENDATIONS:

STAFF REVIEW BY:

**REMARKS**:

#### CURRENT PROPOSAL

The plan proposes to further develop a school with three building additions totaling approximately 17,000 sq. ft., expanded parking areas including new driveway access to Coopertown Road (S.R. 1009), redeveloped paved play area, and various associated improvements including stormwater management and walking paths.

#### SITE CHARACTERISTICS

The site is an elementary school located within a neighborhood of single-family detached dwellings. The tract is bordered by Highland Lane to the north, Coopertown Road (S.R. 1009) to the east, Meadows Lane to the south, and Haverford Township's Highland Park and several single-family residential properties to the west. Existing conditions include a 66,130 sq. ft. school building, two modular classroom buildings, and associated parking and play facilities. Natural features include mature trees and steep slopes.

#### APPLICABLE ZONING

The proposal is located within the INS district and is subject to applicable regulations set forth by the Municipal zoning code.

#### NONCONFORMITIES

Zoning - Existing Nonconformities: The site's loading dock location currently does not comply with zoning requirements. This existing nonconformity does not appear to be exacerbated by the current proposal, though staff note that according to the project plan, zoning code relief is being sought.

**REMARKS**:

Subdivision and Land Development Ordinance (SALDO) - Proposed Unaddressed Nonconformities (Relief Sought):

- General Requirements: Where Section 160-3B requires a separate preliminary plan submission, the plan proposes a combined preliminary/final submission.
- Plan Information: Where Section 160-4E(5) requires plans to depict zoning boundaries, public improvements, utilities, and property owner information within set distances from the site, the plan depicts only that information directly adjacent to the site.

Staff notes that, according to the project plan, SALDO code relief is being sought for the above noted factors.

SALDO - Proposed Unaddressed Nonconformities (No Relief Sought):

- Curbs: The project's proposed curbs do not appear to comply with the regulations as established within the SALDO. Where Section 160-5B(4)(a) requires curbs along all existing and proposed streets, the plan proposes curbs only along new sections of driveway.
- Sidewalks: The project's proposed sidewalks do not appear to comply with the regulations as established within the SALDO.
   Where Section 160-5B(4)(c) requires sidewalks along all existing and proposed streets, sidewalks are missing from Meadows Lane and from a segment of Highland Lane between the school and adjacent Highland Park.
- Shade Trees: The project's proposed shade trees do not appear to comply with the regulations as established within the SALDO. Where Section 160-5B(6) requires shade trees to be provided at minimum 30 feet on center along Highland Lane, the plan indicates several sections where spacing between trees exceeds 30 feet.

REMARKS:

Staff notes that SALDO code relief is required for the above noted factors. Additionally, please see staff comments below related to the above noted sidewalk nonconformity.

#### COMPLIANCE

The proposal appears to comply with the zoning code; however, the proposal must address or obtain code relief for the above listed SALDO nonconformities.

#### SAFE ROUTES TO SCHOOL

Revisions are recommended to improve safe connections between the school and surrounding neighborhood. The plan indicates a Highland Lane sidewalk that stops short of the school's shared property line with Highland Park and no sidewalk along Meadows Lane. Neither road has sidewalks despite the residential nature of the neighborhood that would benefit from a pedestrian network. Staff particularly note a paved trail from the school that ends at Meadows Lane, indicating that children frequently walk or bike to the school from the residences along that road.

Delaware County recently adopted a Vision Zero Delco Action Plan (2025) that advocates for pedestrian and bicyclist safety and that urges municipalities to support safe pedestrian and cyclist facilities, such as sidewalks and bike paths/lanes in all endeavors. The County is also pursuing adoption of the Walk, Roll support of safe active Active Transportation in Delco along Meadows Lane and Extending sidewalks transportation. Highland Lane, whether through the land development process or through a dedicated construction project, would ensure safe routes to the school for pedestrians. Shared use paths would extend the safe school route benefit to children on bicycles.

#### REMARKS:

Additionally, Haverford Township prepared a Safety Action Plan (July 2024) that emphasizes infrastructure providing safe walking routes to schools, including the recommendation of ladder (also known as high-visibility) crosswalks and/or raised crosswalks at the same grade as sidewalks for intersections on roads adjacent to schools. Raised crosswalks should be accompanied by advanced yield or stop markings on the roadway.

Staff recommend that the plan be revised as follows, consistent with Municipal and County transportation safety plans:

- Provide a sidewalk along the school's Meadows Lane sidewalk to facilitate future expansion of the sidewalk network and connections to the school's existing Meadows Lane trail.
- Extend the Highland Lane sidewalk to the west property line to connect to Highland Park.
- Redesign existing school crosswalks as ladder/high-visibility crosswalks. Consider upgrading school crosswalks along Highland Lane and Coopertown Road as raised crosswalks.
- Redesign the proposed Coopertown Road sidewalk as a shared use path to provide safe bike access.

#### HIGHWAY OCCUPANCY PERMIT

In accordance with Section 508(6) of the Pennsylvania Municipalities Planning Code, the plan will need a highway occupancy permit(s) for access onto Coopertown Road (S.R. 1009).

#### SEWAGE FACILITIES

The developer should contact the Pennsylvania Department of Environmental Protection regarding the need for sewage facilities planning approval.

#### REMARKS:

The Municipality should confirm receipt of any necessary Pennsylvania Department of Environmental Protection planning approval prior to final approval.

#### STORMWATER MANAGEMENT

The Municipal Engineer must verify the adequacy of all proposed stormwater management facilities.

#### RECORDING

In accordance with Section 513(a) of the Pennsylvania Municipalities Planning Code (MPC), final plans must be recorded within ninety (90) days of municipal approval.

RE: Plan Review for Land Development at Coopertown School

Dear Director Jilozian,

As requested, I have reviewed the plans prepared by K&W Designing Environments for the land development proposed for Coopertown School. As this development progresses, it is essential that adequate infrastructure is incorporated to ensure the safety of all students and staff.

Given the addition of a new fire sprinkler system, I am writing to request the installation of a new fire hydrant due to the current distance of the nearest fire hydrant being more than 400 feet from the fire department connection (FDC). The new fire hydrant should be installed no more than 100 feet of the fire department connection (International Fire Code Section 912). The fire hydrant should be positioned on the same side of the street as the fire department connection to ensure the fire company personnel can easily access both the fire hydrant and the fire department connection.

It is my recommendation that a new fire hydrant is installed to meet the necessary safety standards for the development.

Should you have any further questions or comments, please contact me.

Sincerely,

Awer Pale

Partially addressed. The applicant should address the requirement for extinguishment of the light sources/minimum lighting levels for safety/security.

#### 19. Addressed.

- 20. A Highway Occupancy permit required for proposed drive from Coopertown Road and all work within PennDOT's right-of-way. (§160-5.B(3)[k])
- 21. Further detail should be provided for the new lateral connection to the existing sanitary sewer on Coopertown Road. Two new lateral connections are proposed. The following apply to these connections:

- a. For the lateral connection at the south end: Information of the size and material of both the new lateral and existing sewer main should be provided, in addition to a detail for the connection of the lateral to the existing main. Also, the lateral appears to be very close to existing mature trees on the road. Lastly, a PennDOT permit will be required for this installation.
- b. For the lateral connection at the north end: The size of the existing lateral should be indicated. In addition, the condition of the existing lateral should be investigated to determine if any remedial work is necessary.
- c. Provide a paving restoration detail on a state highway.
- 22. Evidence of approval of an NPDES permit from the Delaware County Conservation District is required prior to construction. (§160-4.F(2)[b])
- 23. If approved, a Grading, Drainage, Soil Erosion and Sedimentation Control Permit will be required.
- 24. A BMP Maintenance Agreement shall be executed and a contribution to the Township Stormwater Control and BMP Operation and Maintenance Fund shall be made (§78-49; §78-51).

# SHADE TREE COMMISSION MEMO

RE:	LOCATION Coopertown Elementary School development review
FROM:	The Haverford Township Shade Tree Commission
TO:	Jaime Jilozian, Director of Community Development, Haverford Township Alexis De Santi, Special Projects Coordinator, Haverford Township
DATE:	2/1/25

#### Background:

The development team, landscape architect and engineer, presented the plan for tree removal and replacement at the Coopertown ES project to the STC on January 27, 2025. A small number (10) of smaller trees (no Heritage trees) are planned to be removed. Their replacement plan called for 37 trees to be planted. A good diversity of species was represented. The discussion focused on trees that would provide good shade in the future for the proposed playground area. It was suggested that Coopertown ES plant several large white oak trees like to on the back baseball field that is so well loved and if they are able to, plant more large shade trees in other locations of the property that would not interfere with school athletic and other outdoor functions. The Coopertown ES team was eager to comply with these suggestions.

#### Shade Tree Commission Recommendation:

The STC approved this plan as they have met the basic requirements. We assume that they will, in good faith, add several white oaks on the south side of the proposed playground as agreed. We would like to see an updated drawing showing those added oak trees but our approval to allow the start of their work does not depend on that.

Respectfully,

Jim Stephens, Chair Haverford Township Shade Tree Commission

Resolution For Preliminary/Final Subdivision and Land Development Plan Approval for the Caramanico Homes, LLC. For a Four-Lot Subdivision and Land Development Including Constructing Stormwater Management at 223 E. Park Road and 112 E. Township Line Road, Havertown

Whereas, Act 247 of 1968, the Pennsylvania Municipalities Planning Code, empowers the Haverford Township Board of Commissioners to regulate subdivisions and land developments within the Township; and

Whereas, Haverford Township desires orderly and appropriate land use and development to protect the health, safety, and welfare of residents; and

Whereas, The Caramanico Homes, LLC ("Applicant") desires to consolidate two lots and subdivide into four-lots and develop the properties located at 223 E. Park Road and 112 E. Township Line Road, Havertown, PA, Delaware County, known as D.C. Folio Nos. 22-02-01078-00 and 22-02-00893-00 ("Property") to construct two new single-family dwellings on lots 1 and 3 and associated shared drive and stormwater management systems ("Project"). The Property is zoned R-4 Residential District and is located in the 2nd Ward; and

Whereas, the Preliminary / Final Subdivision and Land Development Plan submitted for the Project was prepared by G.D. Houtman & Son, Inc., Media, PA, latest plan revision dated January 27, 2025 ("Plan"); and

Whereas, the Planning Commission of Haverford Township, at the public meeting of Thursday, March 13, 2025, voted to recommend approval of the Plan and the requested waivers subject to the comments contained within the February 25, 2025 review letter prepared by Pennoni Associates; and

Whereas, said Plan has been submitted to the Board of Commissioners of the Township of Haverford for consideration in accordance with the Pennsylvania Municipalities Planning Code and pursuant to the Haverford Township Subdivision and Land Development Regulations, Ordinance 1960, Chapter 160, Sections 4. A and B.

Now, Therefore, Be It Resolved by the Board of Commissioners of the Township of Haverford that the Plan is approved subject to the following conditions:

A. Conditions of Plan Approval.

- 1. The Applicant must ensure that the Plan addresses any outstanding comments in the February 25, 2025 Township engineer review letter prepared by Pennoni Associates. Further, the Applicant shall comply with future review letters related to future Plan revisions made in response to prior comments to the reasonable satisfaction of the Township Engineer.
- 2. The Applicant shall comply with the following conditions made subject to the Planning Commission recommendation on March 13, 2025 as follows:
  - The Applicant shall ensure that the Plan addresses any outstanding comments in the April 3, 2025 memorandum prepared by the Township Shade Tree Commission.
  - The Applicant shall install the shared driveway at least 3 feet or more from the side property line to ensure protection of the 30" dbh tree identified on the plan on the adjacent property.
  - The Applicant shall consider installation of a fence or some other visual buffer between the shared driveway and abutting properties.
  - The Applicant shall execute an easement for the sidewalk along the Township Line Road as it is outside of the Right-of-way.
- 3. A subsequent recordable final plan shall be submitted for internal Township review that addresses all Township Engineer review letter requests, further Plan details and clarifications, or revisions based upon the terms of this Resolution.
- 4. Applicant must comply with any applicable requirements of the, Pennsylvania Department of Environmental Protection, Pennsylvania Department of Transportation (including, but not limited to, obtaining any necessary Highway Occupancy Permits and Signal Permits required by PennDot), United States Environmental Protection Agency, or any other necessary outside agency, and obtain any necessary planning modules, approvals, or permits from such agencies, or enter into any required agreements such agencies require, before the Plan is recorded.
- 5. Pursuant to Section 78-51 of the Township Code, Applicant shall pay the required contribution to the Township Stormwater BMP Operation and Maintenance Fund in the amount calculated by the Township Engineer.
- 6. The conditions of this Resolution must be satisfied, and all fees and costs set forth in this Resolution shall be paid, before the issuance of a building permit for the Project.
- 7. Applicant must complete and record all required easements and/or maintenance agreements or declarations, including, but not limited to, a stormwater management facilities operation and maintenance agreement (requiring, in part, perpetual maintenance of all stormwater management facilities installed according to the Plan by the landowner of the Property) in forms reasonably satisfactory to the Township

Engineer and Township Solicitor prior to recording the Plan. Applicant will provide all necessary legal descriptions for any necessary easements.

- 8. New deeds for the subdivided lots must be approved by the Township Solicitor. The Applicant shall provide a legal description for the new lots and shall provide all necessary legal descriptions for any *necessary* easements or rights-of-way to the Township Engineer for the Township Engineer's review and approval.
- 9. Prior to recording the Plan, the Applicant shall execute a Land Development and Financial Security Agreement to guarantee the installation of all public improvements associated with the Project ("Improvements") on a form drafted by the Township Solicitor. Financial Security shall take the form of a cash escrow held by the Township, an irrevocable standby letter of credit in a form acceptable to the Township Solicitor, or a tri-party agreement in a form acceptable to the Township Solicitor. If Applicant were to post financial security in the form of a bond, the Township Solicitor shall have the unconditional right to review the bond and must approve the conditions and language of the bond. Further, the bond shall be issued by a "AAA" rate surety, or its equivalent, qualified to do business in Pennsylvania, and shall contain language stating that the bond is to be payable upon demand, absolutely, and unconditionally, and if payment is not made, that the bonding company shall be responsible for reasonable attorneys' fees and costs that are incurred to collect on the bond, plus interest at the annual rate of twelve (12%) percent, for so long as the bond remains unpaid. A bond or letter of credit is required to automatically renew annually until the Improvements detailed on the Plans are completed, any maintenance periods have passed, and the final release is issued by the Township, subject to partial releases being permitted in accordance with Pennsylvania Municipalities Planning Code. To ensure automatic renewal, a bond or letter of credit shall include a 90-day Evergreen Clause in a form acceptable to the Township Solicitor.
- 10. Financial security shall be posted in the amount of 110% of the total cost of the Improvements. The Applicant agrees that the Improvements shall include, but shall not be limited to, streets, parking areas, striping, drive aisles, curbs, water mains, sanitary sewer pipes, manholes and appurtenances thereto, stormwater facilities, rain gardens and appurtenances, grading, erosion and sediment controls, public lighting, required trees, shrubs, plantings and landscape buffering, monuments, pins, sidewalks, or other public improvements designated by the Township Engineer. For a period not less than 18 months after Township Engineer approval of the Improvements, financial security shall remain posted in the amount of 15% of the total cost of the Improvements that are to be dedicated to the Township, if any.
- 11. All outstanding Township fees, including review and recording costs and fees, Township Engineering fees, and Township legal fees, and any other professional fees associated with the review and approval of the application and Plan shall be paid in

full before the Plan is recorded, in accordance with the Pennsylvania Municipalities Planning Code.

- 12. Prior to recording the Plan, and in addition to the financial security posted for the Project, Applicant shall deposit with the Township or otherwise establish a reasonable sum of monies with the Township, in an amount to be reasonably determined by the Township Engineer, as to be further described in the Land Development and Financial Security Agreement, for the reimbursement of the Township's reasonable engineering, inspection, legal, and related administrative costs and expenses related to the further reviews, inspections, and development of the Project, in accordance with the Pennsylvania Municipalities Planning Code.
- 13. A note shall be included on the final recorded Plan listing any waivers granted by the Board of Commissioners.
- 14. Except for the conditions and requirements placed upon the future development as specified in the Plan and herein, this Resolution shall not apply in any way to any future construction or land development on any lot or the consolidated lot. Upon any applicable construction or commencement of development on the consolidated lot, the Applicant will obtain any other necessary Township approvals, relief, and/or permits, and pay all applicable fees, unless additional relief is obtained.
- 15. The terms and conditions of this Resolution shall run with the land and shall apply to any assignee, transferee, or other successor in interest in the Property or the development of the Project. This Resolution or a memorandum of this Resolution may be recorded against the Property by the Township, or a subdivided portion of the Property, at the Township's sole discretion, to which the then-current landowner of the Property shall be deemed to have consented to such recording. Regardless of whether this Resolution is recorded, the Township shall have the right to enforce any violations of the conditions of this Resolution as a violation of the Township's Subdivision of Land Chapter and/or pursuant to Section 616.1 of the Pennsylvania Municipalities Planning Code.

B. Waivers. The Applicant has requested the following waivers from the Township's Subdivision of Land Chapter pursuant to a written waiver request. An indication that a waiver was granted reflects that the Township has determined that the Applicant has sufficiently established that the literal enforcement of the provision waived will exact undue hardship because of peculiar conditions pertaining to the land in question, and that the waiver is not contrary to the public interest or otherwise contrary to the purpose and intent of the Township Code, as demonstrated and explained by appearances of the Applicant before the Board at public meetings and through the waiver request letter(s) submitted. A lack of indication of the decision on the waiver after the Township has

executed this Resolution shall be interpreted to mean that the waiver was granted, unless the minutes of the associated Township meeting reflect otherwise:

1. From §160-5.B(3)[j](i) regarding the requirement to widen the existing rights-of-way of Township Line and Park Roads.

Granted _____ Denied ____

2. Partial waiver* from §160-5.C(4) regarding the requirement to provide open space. The waiver is hereby:

Granted _____ Denied _____

*A partial waiver is granted subject to the Applicant agreement to pay a fee-in-lieu of open space. The Applicant will pay a fee-in-lieu in the amount of \$13,390 for open space. Granting of this partial waiver by the Township does not preclude and shall not prevent the Township from seeking public improvement requirements in future land developments pertaining to the property.

This Resolution shall bind the Applicant, and the Applicant's successors and assigns. This Resolution does not and shall not authorize any construction of improvements or buildings exceeding those shown on the Plan. Furthermore, this Resolution, and the approvals/waiver and conditions contained herein, shall be rescinded automatically and deemed denied upon Applicant's failure to accept, in writing, all conditions herein imposed within ten (10) days of receipt of this Resolution, such acceptance to be evidenced by the Applicant's signature below. The Applicant understands that accepting the Plan conditions and failing to appeal any conditions, as drafted, within thirty (30) days of the approval date set forth below shall serve as a waiver of any such right to appeal and an acceptable of all conditions that, where applicable, shall bind future owners of the Property. The Applicant agrees that the interpretation of any conditions in this Resolution, if later challenged, shall be interpreted in favor of the Township.

Resolved and Approved this 14th day of April, 2025.

Agenda #18 Page 1

Date: November 22, 2024 File No.: 20-8137-24

**REMARKS:** 

#### CURRENT PROPOSAL

The plan proposes to re-subdivide two lots totaling 0.804 acre into four new lots. An existing single-family detached dwelling on the site at the corner of Park Road and Township Line Road (U.S. 001) is proposed to remain, while a second existing dwelling on the site would be demolished. Three new single-family detached dwellings are proposed on the lots being constructed. All properties are proposed to have driveway access onto Park Road only.

#### SITE CHARACTERISTICS

The site consists of two lots within a neighborhood of single-family residences that each contain an existing single-family detached dwelling and associated accessory structures. The property at the corner of Park Road and Township Line Road includes a day care use, which is permitted by special exception in the R-4 district per Sections 182-206B(1) and 182-202B(3)(f) of the Municipal zoning code.

#### APPLICABLE ZONING

The proposal is located within the R-4 district and is subject to applicable regulations set forth by the Municipal zoning code.

#### NONCONFORMITIES

LOT WIDTH: The proposal does not appear to comply with the lot width regulations as established within the Municipal zoning code. Where Section 182-206C(3) requires lots to be at least 50 feet wide at the building line, the plan proposes Lot 1 to be 47.5 feet wide at the building line. Per Section 182-106B, the building line is measured at the required front yard setback, which is 30 feet from the street line.

Agenda #18 Page 2

Date: November 22, 2024 File No.: 20-8137-24

REMARKS continued:

#### SPECIAL EXCEPTION USE

It is not clear whether the existing day care use is proposed to continue on the property at 223 E Park Road. If the use is to continue, then Lot 4 of the proposal is subject to the following regulations as set forth by the Municipal zoning code:

- Side yard requirements of Section 182-206C(6)(b)
- Day care requirements of Section 182-202B(3)(f), including buffering and minimum parking

The Township should confirm the proposed use(s) of the proposal with the applicant to determine whether the proposal complies with the applicable requirements.

#### COMPLIANCE

Contingent upon the applicant clarifying the proposed use(s) of the proposal and obtaining the required zoning relief or addressing the noted issues, the proposal appears to comply with the R-4 district provisions.

#### BUILDING SETBACK LINES

Section 182-715 requires building setback lines to conform with the median setback lines of existing structures on the same side of the street and within 300 feet of the proposed new construction. Aerial imagery and the plan indicate that the median setback lines of nearby existing structures on the same side of Township Line Road as the proposal are approximately 30 feet to 35 feet from the road. However, the plan proposes the dwelling on Lot 1 to be set back 78.85 feet from Township Line Road. It is recommended that the Township review the proposed building setback and determine whether the proposal complies with the building setback requirement.

> Agenda #18 Page 3

Date: November 22, 2024 File No.: 20-8137-24

REMARKS continued:

#### SCREENING

In addition to any screening required for the special exception use on Lot 4 as noted above, staff recommend that vegetative screening be provided along Township Line Road (U.S. 001) to buffer proposed residential properties from the visual impacts of the road's high traffic volume.

#### REPLACEMENT TREES

The proposal does not appear to comply with the tree replacement formula as established within the Municipal tree ordinance. Section 170-2 requires trees less than 30 inches in diameter that are removed to be replanted at a ratio of one inch of new tree diameter for every four inches of existing tree diameter removed. Trees greater than 30 inches in diameter that are removed shall be replanted at a ratio of one inch of new tree diameter for every one inch of existing tree diameter removed. The plan does not provide replacement plantings for the following trees on Lot 1 that would be removed due to grading:

- 28-inch evergreen tree
- 40-inch deciduous tree

Staff note that the 40-inch tree appears to be multi-trunked, with individual trunks that are smaller than 40 inches in diameter. Staff recommend that the Township provide guidance to the applicant on replacement requirements for multi-trunked trees.

#### HIGHWAY OCCUPANCY PERMIT

In accordance with Section 508(6) of the Pennsylvania Municipalities Planning Code, the Township Engineer should confirm if the plan will need a highway occupancy permit(s) for access onto Township Line Road (U.S. 001).

> Agenda #18 Page 4

Date: November 22, 2024 File No.: 20-8137-24

REMARKS continued:

#### SEWAGE FACILITIES

The developer should contact the Pennsylvania Department of Environmental Protection regarding the need for sewage facilities planning approval.

The Municipality should confirm receipt of any necessary Pennsylvania Department of Environmental Protection planning approval prior to final approval.

#### STORMWATER MANAGEMENT

The Municipal Engineer must verify the adequacy of all proposed stormwater management facilities.

#### RECORDING

In accordance with Section 513(a) of the Pennsylvania Municipalities Planning Code (MPC), final plans must be recorded within ninety (90) days of municipal approval.

#### RE: Minor Subdivision Plan Caramanico Homes, LLC – 223 E. Park Road – 2nd Review

Dear Ms. Jilozian:

As requested, we have reviewed the following prepared by G.D. Houtman & Son, Inc. in connection with the referenced property:

- "Caramanico Homes, LLC" (six sheets) dated October 31, 2024, last revised January 27, 2025.
- *"Stormwater Management Calculations for Caramanico Homes, LLC"* dated October 31, 2024, last revised January 27, 2025.
- Supporting Documentation

The applicant, Caramanico Homes LLC, proposes to reverse subdivide two (2) existing lots (folio nos. 22-02-01078-00 and 22-02-00893-00) and subdivide into four (4) new lots at the referenced property. A new single-family dwelling and driveway are proposed on Lots 1-3, and the existing building on Lot 4 is proposed to remain. Individual infiltration beds for each new dwelling are proposed for stormwater management. The property is within the R-4s Residential Zoning District.

The applicant is requesting the following waivers:

- From §160-5.B(3)[j](i) regarding the requirement to widen the existing rights-of-way of Township Line and Park Roads.
- From §160-5.C(4) regarding the requirement to provide payment of a fee-in-lieu of providing open space.

The following comments remain outstanding from our December 2, 2024 review:

#### <u>ZONING</u>

1. The applicant should confirm conformity of proposed setback lines with the median setback lines of existing structures on the same side of the street and within 300 feet of the proposed new construction. (§182-715)

#### SUBDIVISION AND LAND DEVELOPMENT

- 2. Horizontal sight distance should be provided for each proposed driveway. (§160-4.E(5)[e](12)) Sight distances could not be located on the plan.
- 3. The minimum right-of-way width for residential/minor collector streets is 50-feet. (§160-5.B(3)[j](1)) The applicant appears to be providing an additional 2.5 feet of right-of-way for the length of the property. The record plan should clearly indicate dedication of this right-of-way on Park Road. **The applicant has requested a waiver from this requirement.**
- 4. In each residential district involving the creation of two (2) or more new building lots, land shall be required to be set aside for open space and/or parks and recreational facilities, or a fee-in-lieu requested. (§160-5.C(2,4)) **The applicant has requested a fee-in-lieu for this requirement.**

#### STORMWATER MANAGEMENT

- 5. Existing water and sanitary sewer services should be indicated on the plan for proposed Lot 4. (§78-25.B(5)) Partially addressed. The laterals for Lots 2 & 4 are to be identified as existing. Additionally, the following note is to be added to the plan: Where an existing sewer lateral is available for reuse subsequent to the demolition or removal of a previously existing building, the lateral may be reused provided that it is inspected by the Township Engineer and is found to be adequate in terms of infiltration/inflow and general conditions. (§149-3.C(8))
- A BMP Maintenance Agreement shall be executed and a contribution of \$2,200.00 per lot to the Township Stormwater Control and BMP Operation and Maintenance Fund shall be made. (§78-49, §78-51)

#### <u>GENERAL</u>

- 7. A Sewage Facilities Planning module or exemption will be required. (§160-4.E(5[d])
- Additional spot elevations should be provided to verify the slopes of proposed driveways are consistent with Township Design Standards. Partially addressed. Additional spot elevations shall be provided at all driveways to verify the slope of the sidewalk/apron do not exceed Township Design Standards.
- 9. A Township Road Opening Permit will be required for the driveway and utility installations on E. Park Road.
- 10. Roadway restoration shall conform to the requirements §157-30. The road restoration detail shall be revised accordingly. Partially addressed. Given the number of utility cuts, the roadway restoration shall be completed in conformance with §157-30 G(2). A note indicating this should be added to the plan.

#### A HOME RULE MUNICIPALITY

- 11. A tree removal permit is required for removal of the existing trees on site. (§170-4.B) All proposed landscaping and tree replacement should be reviewed by the Township Shade Tree Commission.
- 12. The applicant should indicate how the openings in the wall along Township Line Road will be addressed. Partially Addressed. A detail for the wall should be provided on the plans.

The following comments are based on the most recent revisions:

- 13. The building envelope for Lot 3 should be properly indicated on the plan and the Zoning table updated accordingly. In addition, the entire building envelope for Lot 2 should be indicated. (§182-206.C)
- 14. Supporting hydrographs for the pre-development and bypass drainage areas should be provided to verify consistency with the peak rate summary table included in the stormwater management calculations. (§78-25.A(3))
- 15. The plans should indicate the existing utility poles on Park Avenue.

Should you have any further questions or comments, please contact the undersigned.

Sincerely,

PENNONI

TREE PROTECTION REQUIREMENTS

- 1. Prior to any clearing or site disturbance, the Township requires a meeting with the applicant and/or site Contractor, to determine the methods to be implemented by the applicant to
- minimize tree loss. Applicant is required to follow standards as established in Section 170. 2. All trees and other vegetation to be preserved shall be protected from damage by construction fencing or other effective barriers approved by the Township. Fencing or barriers around trees shall be placed outside the critical root zone, unless otherwise approved by the Township. Tree Protection fencing must be installed and approved by the Township prior to the start of any clearing or earth disturbance and monitored periodically. The tree protection fencing shall be removed only after all construction activities that may impact tree roots are completed.
- 3. When disturbance within the critical root zone is unavoidable, applicants shall minimize encroachment and use the best available methods as approved by the Township to minimize damage and preserve trees. These methods may include, but shall not be limited to, utility tunneling, use of Geo-textiles, mulching, hand root pruning, and soil aeration. Applicants shall consult references such as a Guide to Preserving Trees in Development Projects, published by the Penn State College of Agricultural Sciences Cooperative Extension.

Re: Final Minor Subdivision Plans Caramanico Homes, LLC 223 E. Park Road, 112 E. Township Line Road

Dear Ms. Jilozian:

We are in receipt of the Township Engineer's review letter dated February 25, 2025 for the Caramanico Homes, LLC subdivision at 223 E. Park Road and 112 E. Township Line Road.

Please find listed below our responses which outline the proposed plan changes to address the comments contained in the referenced review. For clarity we have provided the full comment from the Township Engineer with our response provided in bold italic print listed below the comment. Heading and subheading numbers match those of the review:

#### ZONING

1. The applicant should confirm conformity of proposed setback lines with the median setback lines of existing structures on the same side of the street and within 300 feet of the proposed new construction. (§182-715)

Will comply. An analysis which provides the current setbacks of the existing structures located on the same side of the street and within 300 feet of the proposed houses associated with the subdivision will be provided.

#### SUBDIVISION AND LAND DEVELOPMENT

2. Horizontal sight distance should be provided for each proposed driveway. (§160-4.E(5)[012))

### Available sight distances at the proposed driveways will be added to the plans..

3. The minimum right-of-way width for residential/minor collector streets is 50-feet. (§160-5.13(3)[j](1)) The applicant appears to be providing an additional 2.5 feet of right-of-way for the length of the property. The record plan should clearly indicate dedication of this right-of-way on Park Road.

No plan revisions required. Per recommendations received by the Township Planning Commission, a waiver for the right-of-way widening for Township Line and Park Roads is included on the revised plans.

4. In each residential district involving the creation of two (2) or more new building lots, land shall be required to be set aside for open space and/or parks and recreational facilities, or a fee-in-lieu requested. (§160-5.C(2,4))

A fee-in-lieu of open space will be paid by the Applicant prior to plan recording. A waiver for the payment in fee in-lieu of providing the open space is included on Sheet 1.

#### STORM WATER MANAGEMENT

5. Existing water and sanitary sewer services should be indicated on the plan for proposed Lot 4. (§78-25.B(5)) Partially addressed. The laterals for Lots 2 & 4 are to be identified as existing. Additionally, the following note is to be added to the plan: Where an existing sewer lateral is available for reuse subsequent to the demolition or removal of a previously existing building, the lateral may be reused provided that it is inspected by the Township Engineer and is found to be adequate in terms of infiltration/inflow and general conditions. (§149-3.C(8))

Will comply. The laterals on Lots 2 & 4 will be labeled as existing. The requested note will be added to the plans.

 A BMP Maintenance Agreement shall be executed and a contribution of \$2,200.00 per lot to the Township Stormwater Control and BMP Operation and Maintenance Fund shall be made. (§78-49, §78-51)

Will comply. The required BMP maintenance agreement and contribution of \$2,200 per lot will be provided to the Township prior to plan recording.

#### <u>GENERAL</u>

 A Sewage Facilities Planning module or exemption will be required. (§160-4.E(5[d])

Will comply. A planning module exemption will be obtained from DEP for the increased flow of two (2) EDUs associated with the subdivision.

 Additional spot elevations should be provided to verify the slopes of proposed driveways are consistent with Township Design Standards. Partially addressed.

## SHADE TREE COMMISSION RECOMMENDATION MEMO

Re: Tree removal for building 2 homes		emoval for building 2 homes	
	Owner:	Caramanico Builders	
	Applicant:	David Caramanico and GD Houtman, Civil Engineers, Media PA	
RE:	223 E. Park Ro	oad, Havertown PA	
FROM:	The Shade Tree Commission		
TO:	Jaime Jilozian, Director of Community Development, Haverford Township 1014 Darby Road, Havertown, PA 19083		
DATE:	4/3/2025		

#### **Background:**

This report supersedes a previous recommendation from 10/2/24. Zoning ordinances necessitated a change in the configuration of the initial plan. In the current plan 2 new homes will be constructed and 2 properties will be renovated on the 4 lots. The project will now require the removal of 10 healthy trees, totaling 242" dbh. Replacement of 113" dbh is required by Township code. The plan called for replacement 4 trees totaling 10" dbh. 8 street trees will be planted every 30' of street front with the understanding that these trees will not be counted toward the replacement number. The total amount owed by the Builders is 52 x \$250/tree = \$13,000 in lieu of replacement.

Neighbors from 219 E Park were present to voice a concern about preservation of a large Maple tree on their property line.

#### **Shade Tree Commission Recommendations:**

The Commission voted unanimously to approve the plan with the following conditions: 1) The STC recommended a diversity of replacement trees, including small trees to be planted under the electric wires on Park Road; 2) that every effort be made to preserve the 219 Maple tree including a fenced protection zone 20' from the stem of the tree, raising the grade of the proposed driveway as little as possible, tunneling of electric lines under driveway and tree roots under arborist supervision; 3) pay \$13,000 in lieu of replacement trees not planted as noted above.

Respectfully submitted Jím Stephens, Chair, Haverford Township Shade Tree Commission April 2, 2025

#### Rycon Construction Change Request for an add of \$3,295.95.

The cost included is to fix an existing steel column baseplate at the front of the building. The existing baseplate was connected to a footer demolished for a new foundation wall and had to be replaced prior to the new concrete footer being poured. The cost submitted and attached for reference is fair and reasonable.

#### Rycon Construction Change Request for an add of \$5,217.45.

The cost included is due to RFI #148 which called for an existing steel column at the front of the building to be reinforced in field to accept the new front high roof column. The contract documents called for the new column to be installed directly over the existing column. The cost submitted and attached for reference is fair and reasonable.

#### Rycon Construction Change Request for an add of \$6,109.95.

The cost included is due to RFI #147 which called for additional in-wall masonry support needed to accept the new steel. Upon the wall being demolished, it was determined the wall was not constructed as shown on the original plans and additional support would need to be added. The cost submitted and attached for reference is fair and reasonable.

#### Rycon Construction Change Request for a credit of (\$2,596.04).

The cost included is a credit back to the owner from Rycon for the roof edge metal at the 1979 building existing roof no longer being installed by them. This edge metal will now be included in the Costar Roofer's scope of work. The actual cost from the Costar Roofer for this scope will be submitted for May board approval. The cost submitted and attached for reference is fair and reasonable.

#### Rycon Construction Change Request for an add of \$3,202.50.

The cost included is for additional wood blocking needed at the new roofing overlay of the 1979 building mentioned above. Due to the additional insulation being added, the perimeter had to be built up to match the new roof line to accept the metal edge fascia. The cost submitted and attached for reference is fair and reasonable.

#### Rycon Construction Change Request for an add of \$2,361.45.

The cost included is due to additional steel reinforcement and masonry needed at the existing old bank building parapet walls as directed by the project Structural Engineer. Isolation cracks were found after demolition of the existing roof which needed to be addressed prior to the new roof being installed. The cost submitted and attached for reference is fair and reasonable.

#### Rycon Construction Change Request for an add of \$3,213.11.

The cost included is due to a void noticed by the architect between the new addition concrete slab and the new curtainwall. Insulation needed to be added at this condition which was not shown on the contract documents. The cost submitted and attached for reference is fair and reasonable.

#### Rycon Construction Change Request for an add of \$2,625.00.

The cost included is due to RFI #143 which called for additional work needed at the existing roof joists to tie them into the new steel beams as directed by the project Structural Engineer. The cost submitted and attached for reference is fair and reasonable.

#### Rycon Construction Change Request for an add of \$3,111.84.

The cost included is due to the demolition needed of the existing concrete grade beams at the front entrance so the new foundation walls could be installed. This demolition was not shown on the contract documents. The cost submitted and attached for reference is fair and reasonable.

#### Dolan Mechanical (HVAC) Construction Change Request #8 for an add of \$2,749.50.

The cost included is for Dolan to startup the existing boilers. The boilers were installed in 2022 outside of this project's scope of work and are being reused as part of this project. They did not own startup of the existing boilers as it was not shown on the contract documents. The cost submitted and attached for reference are fair and reasonable.

#### Dolan Mechanical (HVAC) Construction Change Request #13 for an add of \$11,773.13.

The cost included is for BACnet cards to be provided for the existing boilers needed for the boilers to be controlled by the new building automation system for the HVAC. The cards were not included in the contract documents but are needed for the system to operate. The cost submitted and attached for reference are fair and reasonable.

#### AJM Construction Change Request #18 for an add of \$6,325.00.

The cost included is additional power needed for the three mini-split air conditioning units in the lower level. The contract documents did not show the power feeds to these units. The cost submitted and attached for reference is fair and reasonable.

#### AJM Construction Change Request #19 for an add of \$9,644.00

The cost included is for additional light fixtures from Bulletin 13. The previously approved change order did not have all of the light fixtures required included in that change so this change is for the balance of the fixtures needed. The cost submitted and attached for reference is fair and reasonable.

## **1.0 Solving Crime, Enhancing Enforcement**

This PLATELOGIQ solution will provide advanced capabilities to the Haverford Township Police Department that will both aid in solving crimes and increase the level and degree of traffic enforcement and compliance in the Township. A few of the key benefits include:

### 2.0 Scope of Work

PLATELOGIQ (PL) will provide Haverford Township with a comprehensive suite of hardware and software to monitor vehicle traffic on the roadways at the intersections described in this section. Our solution will include high definition advanced license plate recognition (LPR) cameras and state of the art machine-learning analysis software.

PL will provide and install the following items:

- License Plate Recognition processors at each intersection
- License Plate Recognition cameras, quantities identified per intersection
- LPR service licenses
- LPR maintenance
- Cabling and brackets

PLATELOGIQ will work with a third-party installer to install the cameras and cabling on the traffic signal mast arms. PLATELOGIQ will be responsible for the installation of all LPR equipment and networking.

### 3.0 VIPR Service Subscription Model

The VIPR Service is provided exclusively as a subscription-based offering, with an annual payment required to maintain access. This subscription model ensures that users receive a comprehensive package that includes ongoing maintenance, software updates, cloud storage, and support services throughout the subscription term. Unlike a perpetual license or a one-time purchase, the VIPR Service is designed to deliver continuous value and evolve with user needs, supported by regular enhancements and improvements.

It is important to note that the service will cease to function if the annual payment is not made, as access is contingent on an active subscription. This approach ensures that users always benefit from the latest features, security updates, and a fully managed service experience without the need for separate or incremental costs beyond the subscription fee.
